To Whom It May Concern:

My very good friend and sister,
Kruptal Denise Clark, #435044
is suffering terribly: physically,
mentally, and emotionally. Watching
her in terrific pain daily takes it's
toll on me. We are supposed to
help one another! God didn't
create us to hurt others - but THAT
is what happened at Huron Valley
Women's Correctional!

Kruptal is a vibrant woman, very
intelligent and caring for this
world. Please help her! We
all need and require your
immediate attention. This medical
allergy that infests her body and is
bringing about her eventual demise
was created at this facility. She
is not the woman today that I met
thirteen years ago. Her physical appearance

has deteriorated to the extreme degree!

How can the people in authority
over us allow this to occur!?

This situation is heart binking -

she needs all the help you can
possibly bring to her. She is a
mother and grandmother - her
family would relish the opportunity
for her to go home and be a
loving family outside of all
incarceration.

Justice can never be served
where so much injustice resides!:

Sincerely,

Nancy Louise Absenath
