

To Whom It May Concern,

Jan 23rd-23

My name is Shontel Estes #730528. I've been knowing Krystal Clark for over a year. I consider Krystal my family. I have seen Krystal's health worsen over the time I've known her. I can hear when she's in pain, crying cause she can't walk, eat or talk sometimes I have to read and write for her when she can't. I have personally seen health care deny her. Which is so wrong because if you could see her you would cry right along with us. I've also seen Deputy Allen and the Warden speak to her wrongly and see them try their best to relate against her and me for helping / sticking by her side. I leave in July of this year, and my biggest fear is when I go she may not live to speak to me. Krystal is slowly dying. I'm afraid for my funeral. She deserves to go home to her family and to me. She has dreams/goals

I want for her to meet every last one
of these, I will like to stay in contact
with whom ever to keep helping Krystal
and others at Huron Valley.

I'm not sure my letter means much
but every chance I get I will speak
out.
