

June Newsletter 2026

The club attended Cars at the Castle an event held the idyllic grounds of Hever Castle. We had ten cars on display parked on the slopes giving us a splendid view of the Castle and gardens. The show was very well attended with the public making the most of the brilliant weather. Later in the month a small group of members made the trip down to Blackwood Forest near Winchester on the outskirts of the New Forest for a short break. The accommodation is located deep in the forest and benefits from the shade of the trees. The extreme heat experienced when in the direct sun did restrict some of the planned activities. The club members are now looking forward to coming months with plenty of activities in the diary.
