WELCOME TO A NEW SEASON

We are excited to welcome everyone back for a new season of lectures, fieldtrips and sharing what we love. We have been working hard figuring out the best way to shape this season and include some fun opportunities to introduce our organization to the public. In the past our lectures have started in October but this year we have opted for our lecture series to start in January 2025. We still have some fun planned for the end of this year, in October we will have a table at Jonathan Dickenson's FireFest and in November we have a great fieldtrip planned with more information to come. We are doing the final touches for our lectures and hope to have that information out soon.

Last year we had a member Israel Mireles do an incredible project and he even presented at the FAS convention. We will share more information when his canoes go on display at the Stuart Heritage Museum.

As always, we want to thank you for your support and hope to see you at our events this year and the 2025 lecture series.

Reminder to pay your dues- its only through your generosity we can keep going.

Save the Dates

October 19th : FireFest (Jonathan Dickenson State Park)

November 16th : Sewall House tour (in Indian Riverside Park)
