

Catalog of Home Floor Plans with Front Elevations

Thank you for downloading these floor plans from HousePlansXpress.com. We sincerely hope this will assist you in choosing a home plan that will best suit your needs.

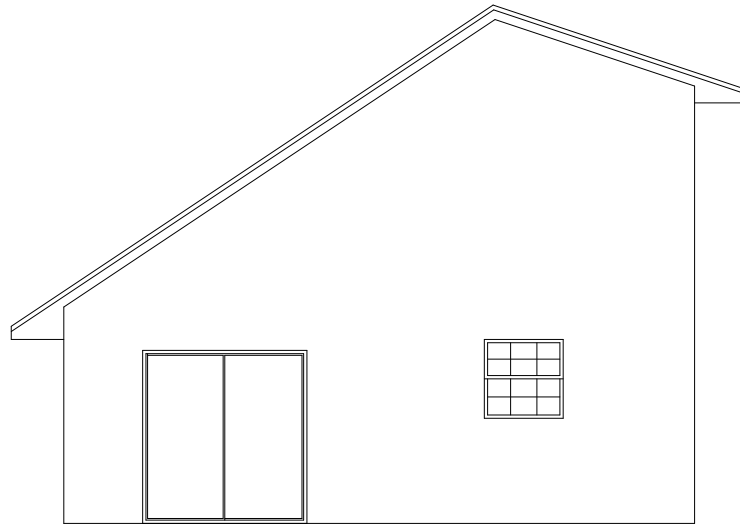

The plan images shown on our website and in this .pdf file are general representations and are not to scale. They do not contain details and the dimensions shown are approximate only.

Our full plan sets, which are printed from the original CAD files, are of very high quality and contain all necessary details and accurate dimensions for use in the construction process.

Also note that our plans can be customized for you. No additional charges apply for customizing our full size, printed plans unless you increase the square footage of the home by adding a room or moving out exterior walls. Please return to our website for more information on ordering and customizing plans. <http://www.houseplansxpress.com>
