

Revealing that colors inspired by nature are her natural choice, Candice Olson describes her passion for each color.

Nimbus gray 2131-50 is a cool gray blue that captures the look of a perfect stormy sky and can look either serene or dramatic.

The Candice Olson absolute, can't lose color is **gray mirage 2142-50**, a misty gray green is a great foundation for any space.

Pale oak OC-20 is a beautiful beige hue, that she pairs with natural stone like lime stones. A very light neutral with a slight blush undertone that brings beautiful warmth to any space.

Niveous OC-36 is a gorgeous cream and warm neutral which she pairs with **cloud white OC-130** on ceilings and trim for a quiet, classic tonal look.
