Because Employees Matter

What services do we offer?

- ❖ Gather Data – We can retrieve data from most current carriers or create quote files from existing forms.
- ❖ Generate Proposal – We have access with most carriers to run quotes in-house. In the event we need an underwriter to look at it, we can have quotes back within a few days.
- ❖ Comparison – We provide useful comparison tools to help employers budget their cost and select the best plans to offer their employees.
- ❖ Enrollment – We utilize an online enrollment system that allows employees to self-enroll while allowing the employer to establish class rules and keep track of all enrollment/change activities.
- ❖ Compliance – We provide all necessary information to employees for both State and Federal regulations. We provide complete COBRA services.
- ❖ Claims – We become the complaint department and aid employees and their families with any eligibility/service/claim issues.
