

GLYCERIN FACTS

- **Fran's Fair Garden sells Pure, USP (United States Pharmaceutical) grade, Kosher, Vegetable Glycerin. 100% Organic FLOWER AND FOLIAGE PRESERVATIVE. (It can also be applied in hundreds of other uses.)**
- Glycerin is a liquid made of Hydrogen, Oxygen, and Carbon. It is thick, odorless, colorless, and non-toxic.
- Glycerin is a humectant, which means it draws moisture into the outer layer of your skin. It forms a barrier to lock in moisture and keep toxins out.
- Used for making soaps.
- For DRY SKIN, ECZEMA, SCALY, ITCHY SKIN, apply after bathing/showering while skin is still damp. Leaves you feeling silky smooth.
- Used in food as a sweetening agent, emulsifier, and preserving agent.
- Used in Pharmaceuticals to make medicines more palatable and even in IV fluids.
- Used as lip moisturizer, soothes cracked heels, reduces skin aging, reduces frizzy hair, gives nails a brighter look.
- Works as a skin toner on your face.
- Glycerin is the key ingredient in dynamite.
- Glycerin can dissolve polar and nonpolar substances. It makes a great solvent in many industries.
- Aids in re-inking your embossing ink pads. Add a few drops to bring it back to life.
- Can improve your acrylic paints by adding a few drops to your rinse water.
- Mixed with water in snow globe makes the snow fall slower.
- Works as antifreeze in sprinkler systems.
- Boosts the metabolism of nitrogen fixing bacteria in soil, creating a richer growing medium. Increases soil quality in composting too.
- Used as a solvent in making your own insect repellents.
- Add a few drops to your kids bubbles.
- Used in pet treats for dogs and cats.
- Treats and conditions leather.
