However, to prevent unfair practices and misuse of the utilities, we have the below terms and conditions. This is in place to make sure all members have a fair and equal chance to use and benefit from the project.

!! Secondary sale of Brave Passes NFT should not be below Mint Price. If so, the pass loses its Discount and Airdrop utilities. !!

- This is done so that people do not lend Brave Passes to outside or new members for \$1 offers, who then make use of this Pass to purchase Brave legends with discounts and later send back the Passes
