

We continue to sowing seeds of peace in Bolivia

Dear Community,

We are the NGO Program of Alternatives to Violence Bolivia. We are happy because in 2024 we have managed to reach many more people with our methodology and principles of inclusion, empathy, solidarity, respect, honesty, justice and truth. Our efforts are focused on supporting education in different environments and levels to forge a society with less violence and inequalities.

Here we share a little about the achievements we have had as a team...

News from AVP Bolivia
N° 1/2025

1. Home of Students Willing to Improve with PAV - Sorata Bolivia

We are a reference for comprehensive support.

We offer lodging, food, pedagogical and BioPsychoSocial support to students from rural communities

The last week of classes, the students had a study tour of the La Paz city and shared lunch with the Ombudsman of Bolivia. One of the questions they asked him was, 'What do I need to study to become an ombudsman like you?' The dialogue with a national authority has motivated them to continue studying and improving themselves.

4. GreenHouses in prisons

4 greenhouses installed inside prisons in Potosí and Oruro that help improve their nutrition and generate resources through the sale of surplus production

5. AVP in community

We have conducted 3 basic level workshops with prison police officers and university students, 1 advanced workshop and 1 facilitator training workshop.

All this work is thanks to the financial support of:

Waljok Foundation **www.waljok.org**
Supporting the Student Residence and Domestic Violence workshops since 2019.

Quaker Bolivia Link **www.qbl.org**
Supports the greenhouses and Domestic Violence work

And thanks to the financial support of other people, to whom we extend our deep gratitude. Please, do not stop supporting us so that we can continue to sow seeds of peace.
