BELOW FOR MORE DETAILS

Issuance of this certificate attests that the **Pacific Agricultural Certification Society** has received an application and organic plans from the above-named enterprise, has reviewed its records, inspected its fields and/or facilities and has verified that the products identified are organically produced or handled in accordance with the Canadian Organic Production Systems General Principles and Management Standards CAN/CGSB-32.310 and Permitted Substances Lists CAN/CGSB-32.311, as amended from time to time and with the terms of any Canadian organic equivalency arrangements indicated.

Certification under section 345 of the Safe Food for Canadians Regulations (SFCR) remains in effect until surrendered by the holder or revoked by the **Pacific Agricultural Certification Society** pursuant to section 350 of the SFCR. However, continuing certification requires an annual update of the organic production/handling plan, annual inspection and annual certification review by PACS. Failure to reapply prior to the deadline for application for subsequent annual inspection (due date identified above or by an earlier due date, as stipulated by the PACS office), results in a state of non-compliance which can lead to suspension and cancellation of certification.

This certificate is issued within the scope of accreditation granted by the CFIA (Accreditation Number COR00906003) and the Committee on Accreditation for Evaluation of Quality (CAEQ). The authenticity and validity of this certificate can be verified on the PACS website under "Organic Client Directory"
