2025

# OVERVIEW

In 2025, Docu+ strengthened its position as a leading documentary-first media venture, advancing its mission to empower audiences through innovative and socially driven storytelling. This year marked significant growth across multiple fronts, including international festival presence, new global partnerships, and the launch of a more defined Docu+ Originals slate.

Our digital footprint expanded to its highest engagement levels to date, supported by impactful social video content and improved distribution channels. Docu+ also celebrated major creative achievements, winning multiple awards from Jeonju Project and K-DOCS, further validating our commitment to bold, auteur-driven work. At the same time, we continued to cultivate a diverse talent ecosystem through internships, workshops, and cross-border collaborations.

Looking ahead to 2026, we plan to scale our content pipeline, deepen global partnerships, and solidify Docu+ as Asia's premier platform for documentary storytelling.

Docu+ is the film and impact studio behind the award winning film Zero Waste (2023) and August, Again (2026)  
2025 was a year of significant impact for us

## Global Presence – TV & Film Markets and Forum

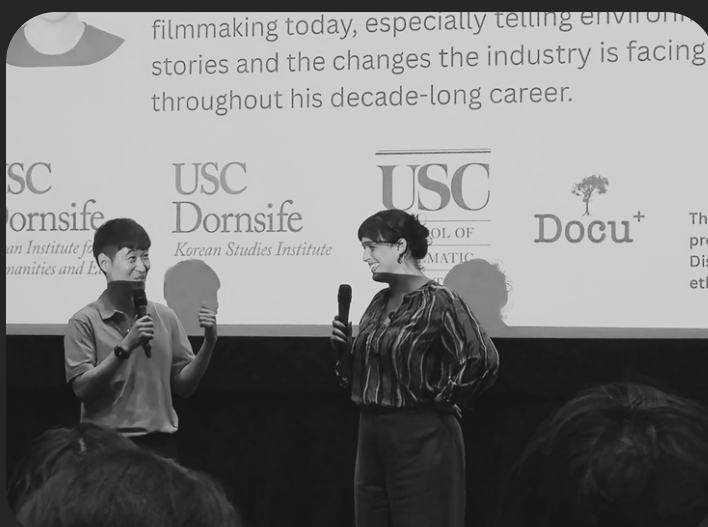

### 2025 GLOBAL PRESENCE

In 2025, Docu+ continued to expand its global footprint. We signed new streaming deal for our impactful documentary “Zero Waste” across Australia and LATAM region allowing us to expand our reach audiences worldwide.

Our participation in prestigious industry market events such as Berlinale Co-Production Market Visitors Program, HK FILMART, Jeonju Project, DMZ Docs Industry, BCWW in Seoul, ACFM Producers Hub in Busan, PREVUE and invited to pitch at IDFA Forum in Amsterdam further solidified our international presence and opened doors to new markets and collaborations.

Additionally, in 2025, we were invited for educational screenings at HKU JMSC, USC, and CSU-Dominguez Hills continuing our impact campaign with Zero Waste.

Through these strategic moves, Docu+ continues to push boundaries and inspire change on a global scale.
