

GENUINE BOW™

PULL. POP. POUR.™

Where Wine Meets Design™

Thank you for choosing GENUINE BOW™

Health & Safety Disclaimer + Lifetime Guarantee

Before your first pull-pop-pour experience, please read the following health and safety information:

Health & Safety

1. Manual Pull Required

GENUINE BOW™ is not battery-powered. It's designed for those who appreciate fine wine and the dignity of manually pulling a cork from a bottle with a pop. Some physical effort is required. If you have joint issues or dexterity limitations, seek assistance.

2. Snap Mechanism Warning

Our screw mechanism locks firmly into place for maximum stability. It may surprise you the first time. Keep fingers clear of moving parts, especially when opening or closing.

3. Sharp Components

This product contains a sharpened helix. That's how it removes corks, not how it trims fingernails. Please handle with care.

4. Not for Children or Pets

Keep out of reach. This is a corkscrew, not a chew toy. Neither toddlers nor terriers will enjoy the outcome.

5. Proper Storage

Store in a dry, secure location after use. Preferably somewhere you'll remember after a few glasses.

6. Follow All Instructions

Incorrect use voids your guarantee and risks injury. Read the user guide before attempting any YouTube-inspired "wine hacks."

Lifetime Guarantee

We believe in our product. So much so, we've included a Lifetime Guarantee.

If your GENUINE BOW™ ever fails due to a manufacturing defect, we'll repair or replace it. No drama.

Just provide proof of purchase and a short explanation.

Warranty exclusions include damage resulting from misuse, neglect, or use as a lever for non-wine-related tasks — e.g., opening paint cans, etc.
