Authentic Enneagram work is really the work of the **Centers** – learning how to presence and integrate the intelligences of the body, heart, and mind. Gurdjieff said it took one Center to notice anything about reality. One center interrupts the momentum of our egoic habitual nature. It takes any two centers with presence to know anything. In other words, intuition from just one Center is mostly unreliable. With all three Centers, we begin to enter actual transformation. When that starts to happen, the polarity of the heart and mind reverse. In personality, the heart is reacting to everything and the mind is trying to lead. When we actually show up in presence [in all three Centers], the mind becomes receptive and the heart leads. Central to all the historical teachings was the necessity of **practice**. ~ Russ Hudson

<p>Energies are the essential qualities that are ways we experience presence. They help heal the Passion which is the emotional suffering created by the perceived absence of energy and perceived separation from Source and ourself (Hudson). <i>The essential quality reveals the inner logic of each Fixation. (Almaas Keys p5)</i></p> <p>8 Vitality and aliveness; <i>true strength</i> 9 Receptivity; dynamic flow; spaciousness; <i>boundless love</i> 1 Alignment; structure and discipline; <i>brightness, brilliancy</i></p>	<p>2 Collaboration, cooperation, communication; <i>merging love, gold</i> 3 Engagement; intention and purpose; <i>personal essence</i> 4 Intimacy and deeper truth; “what’s it all about?”; <i>essential identity, green</i> 5 Clarity; <i>diamond guidance, black</i> 6 Courage; <i>personal will, silver white</i> 7 Navigation and choice; <i>pleasure vehicle; yellow</i></p>

Body - Biological Instincts	Self-Preservation (SP) survival	Sexual (SX) evolution	Social (SO) connection
Instincts are energies related to our emotions from childhood wounds involving loss of connection. They are areas we can actively work on.			

Higher Mind
Holy Ideas (some have 2 & 3) – direct experience of **perceptions** of Reality that are liberated as our fixated patterns are seen and surrendered; our mind opening to deeper possibilities; experience of nonduality. They manifest as a result of inner work, when present and grounded.

8 **Holy Truth**: realness & aliveness of Reality, of the moment; indivisibility & openness of Reality itself; we respond with awe
 9 **Holy Love**: benevolent holding of Reality which includes us; (not romantic love)
 1 **Holy Perfection**: sacredness & order of Reality; nobility of our journey including our suffering; the perfection of Holy Truth, of this moment; we respond with wonder
 2 **Holy Freedom**: living relatedness and inseparability of self and Reality, based in Holy Love and Holy Perfection; freedom from ego patterns; and **Holy Will**: surrender to the unified flow of living Presence; the action of Holy Truth
 3 **Holy Harmony**: simultaneity & fulfillment of all of Reality; (no separate doer); **Holy Hope**: openness & receptivity of the revelatory truth of each moment; our awakening in this moment manifests hope in the world; and **Holy Law**: working with laws of universe & human psyche without judgment as part of Reality
 4 **Holy Origin**: intimate, mystery of Reality, of this moment; point of creation; source of self & consciousness; all appearance is the manifestation of Being, of Holy Truth
 5 **Holy Omniscience**: illumination of *knowing* in service of the moment; Universal Mind which is the multiplicity of existence within the unity of Holy Truth making a unitive whole; and **Holy Transparency**: perceiving the empty silence of Holy Origin, the face of the Divine, and the phenomenal world all in this moment, with no need to figure it out; the ‘body’ of God
 6 **Holy Faith**: direct experience & trust in the solidity & Holy Perfection of this moment, feeling supported; soul’s realization that we are a Divine spark on a human journey; related to Holy Hope (3) & Holy Love (9) = Δ
 7 **Holy Plan**: divine unfoldment of intelligent dynamism and forward momentum of Reality & each moment, guided by surrender (Hudson)

Higher Heart
Virtues – our heart recognizing the deeper truth of our experience. They manifest as a result of our inner work, when present and grounded.
 The **body** is responsible for our ability to manifest the Divine in this earthly world. The **head**, the true mind, develops receptivity, openness, stillness, creativity, and prayer, and opens us to a direct experience of heaven. The **heart** ties together heaven and earth, the Divine and the human, so we can become whole.

8 **Innocence** – mercy, protecting something delicate & sacred; presence - being with what is unfolding in the moment
 9 **Engagement** – contact and availability; I’m here
 1 **Serenity** – grounded support; inner balance in order to respond and not react to external circumstances
 2 **Humility** – I matter, and so does everyone else as much as I do
 3 **Authenticity** – my actions are heartfelt
 4 **Equanimity** – spaciousness of receiving and holding of all; my emotions come and go without disrupting my heart
 5 **Non-Attachment** – witnessing; no agenda; ability to hold the temporariness and preciousness of everything
 6 **Courage** – readiness, trust and feeling supported
 7 **Sobriety** – simplicity of being fed by the richness of the moment; savoring the splendor of what is here and now (Hudson)

<p>Lower Mind Fixations – mental activity that limits our perception and numbs and manages our passion; ego’s view of reality. They limit our range of perception and thinking as a way to manage our suffering.</p> <p>8 objectifying [vengeance*] 9 ruminating 1 opining 2 relational thinking [flattery*] 3 self-deception 4 fantasizing (melancholy) 5 retention 6 over-thinking/worrying 7 anticipating (Hudson) [*older versions]</p>	<p>Complex – a personally disturbing constellation of ideas connected by a common feeling tone; eg. a distorted idea with an unpleasant feeling that we organize around (Jung via Wagner) 8 power complex 9 comfort complex 1 perfection complex 2 savior complex 3 success complex 4 special complex 5 privacy complex 6 security complex 7 variety complex</p>	<p>Defense Mechanisms</p> <p>8 denial 9 narcotization 1 reaction formation - feel one thing, express another 2 repression 3 identification - take on another role 4 introjection – take on another’s chars 5 isolation 6 projection 7 rationalization (Narrative Trad)</p>	<p>Lower Heart Passions – draw their energy from the Instincts; suffering of separation from Source and from object relation between two internal objects (internalized mother and me, or internalized father and me) [see Object Relations Triad]. <i>Where our heart gets stuck, Almaas Keys p2</i></p> <p>8 lust/efforting 9 resignation [sloth*] 1 resentment 2 pride/arrogance 3 vainglory [deceit*] 4 envy (longing, disappointment) 5 avarice [greed*] 6 angst (victimhood) 7 gluttony (Hudson)</p>

My sense was that they connect with object relations, which are the building blocks of the ego self. For example, Seven, One and Four, they're all about frustration in object relations; One is about the stubborn adherence to the ideal and feeling the dissonance between the ideal and the real that keeps frustration going. When you work this way, you can see the original sense of what the Enneagram types were. They are portals into a process of self-awareness, of maturing our heart and soul.
