

Front End Developer: Web and Mobile Applications

Job Type : Full-time

Work Location: Vijayawada

Job description

- Design and develop advanced applications by using the Flutter framework and Dart.
- Collaborate effectively with cross-functional teams to define, design, and ship new features.
- Collaborate with front-end developers to integrate user-facing elements with server-side logic along with documentation
- Identify and correct bottlenecks and fix bugs.
- Maintain code integrity and organization.
- Continuously research, evaluate, and implement new technologies to maximize development efficiency and improve performance across devices.

Key Responsibilities

- Provide support for application development and make necessary changes and updates to ensure the software is up-to-date and meets customer needs.
- Document technical design, issues, solutions, and tips & tricks. Good documentation aids maintainability, knowledge transfer, and team communication.
