One if by land, two if by water, and three if by air.  
Whatever your battle plan, ADAPCO is standing by to  
help preserve the public health.

Get the high-performance resistance management tools you need from ADAPCO. For larval control with built-in resistance management, choose VectoMax (two actives, Bti and Bs) or VectoPrime (two actives, Bti and (s)-methoprene). For adult control we offer Fyfanon EW (low odor and great rotation with synthetic pyrethroids) and our proprietary PermaSease line. The resistance management you need from the partner you trust.
