ALTOSID® P35, THE EASY-TO-USE, 35-DAY RESIDUAL MOSQUITO LARVICIDE.

Our founders discovered the molecule (S)-methoprene – the original insect growth regulator (IGR) used in all Altosid® environmentally compatible mosquito larvicide formulations. With a uniform spherical design, Altosid® P35 granules – our latest innovation – provide easy equipment calibration and accurate application. Altosid® P35 granules also have extended residual, offering 35 days of control during continuous flooding. Plus, like all of our products, Altosid® P35 granules are effective without adverse impact on beneficial non-targets, so you can use it in sensitive areas with confidence.

For more information on Altosid® P35 granules or to find a sales representative or authorized distributor, visit www.CentralMosquitoControl.com.
