

Vector Control

ABOUT

Vectors are mammals, birds, insects or other arthropods that transmit disease pathogens to humans. Most vector control efforts in the United States are aimed toward mosquitoes. Ticks, fleas, flies, other insects, and rodents similarly are a concern to vector control. Many vector-borne diseases are untreatable or are difficult to treat, causing vector control efforts to remain the primary means of protecting public health.

In conjunction with promoting the use of integrated pest management techniques, Target Specialty Products™ partners with vector management professionals, mosquito abatement districts, health departments, and public works staff to assist them with developing and maintaining unique vector control programs. We offer onsite consulting, assistance with field work, and assistance with efficacy tests and chemical trials with the goal of determining appropriate solution options for our customers' individual situations. We also offer onsite equipment calibration and repair to assist our customers with maintenance and compliance issues.

THE TARGET ADVANTAGE

We provide value-added solutions that our customers can count on. We also provide Best-in-Class training, workshops and seminars. Our staff includes Board Certified Entomologists, Licensed pest management advisors and equipment specialists.

PRODUCTS

We offer a complete line of professional vector management products including:

- **Adulticides**
- **Application Equipment**
- **Aquatic Herbicides**
- **Insecticides/Barrier Sprays**
- **Larvicides**
- **Surveillance Equipment**

TRAINING & EDUCATION

We feature training and education programs with numerous classes and seminars for continuing education credit. Offered online, on-site and in the field, our programs are dedicated to keeping customers and industry partners at the forefront of product innovation, regulatory updates and worker safety. Licensing preparation courses, seminars and workshops are provided by highly experienced, professional instructors and staff across North America.

Our goal is to provide you, our customer, with the products, tools, knowledge, and support you need to be successful.

Partial list of products include:

Adulticides

Aqua-Reslin
