## President's Message

With 2010 fast approaching, the VMCA will be celebrating 63 years as an association dedicated to:

- 1) Promoting environmentally sound mosquito control practices in Virginia;
- 2) Keeping abreast of developments and methods;
- 3) Disseminating information and providing training to association members and other interested parties; and
- 4) Educating the general public and uniting common interests and objectives to further professionalism in the control of mosquitoes.

**Lane Carr**  
**VMCA President, 2009**

Our annual meeting is just around the corner and as always, I know it will provide a great opportunity to learn and be re-acquainted with friends and colleagues.

The VMCA ballot will be mailed out next month so please be on the look out for it. There are two outstanding candidates running for 1st Vice President and I encourage all voting members to take an active role.

We all know by now that the pending EPA-mandated NPDES permit is scheduled to become a reality in April 2011. A draft permit, for comments, is to be issued in March 2010. The VDEQ will administer and enforce the new permit requirements. The VMCA provides the perfect avenue for providing comments and input but to be effective, it is imperative that we ALL make our voices heard. There is a wide range of mosquito control operations within our state and we need to make sure the permit writers understand what we do. It is ultimately up to us to do what we can to ensure this process is as painless as possible. We need to express our questions and concerns. The goal is to operate under a statewide General Permit. This likely means each locality would still be responsible for providing their own individual Notice of Intent. There are still more questions than answers.

Randy Buchanan, Legislative Committee co-chair, will be coordinating with VDACS and the VDEQ in the upcoming months as they begin to hammer out proposed permit details. Again, VDACS will not have a role in enforcing the permit. They have only been asked by VDEQ to provide insight because they are the current entity regulating pesticide use. Please channel any input and/or questions you may have for the state, through Randy.

A genuine thank you to all the members of the VMCA who make this a great organization. It has been a privilege to serve as President!

Sincerely,  
Lane Carr  
VMCA President

## Announcements

### Upcoming Dates:

Jan 13th	VMCA Recertification Category 6, 8, 60– Hampton Library– 4207 Victoria Blvd, Hampton, Virginia
Jan 19th-21st	MAMCA Annual Meeting– Savannah, Georgia
Feb 17th-19th	VMCA Annual Meeting– Virginia Beach, Virginia
Mar 28– Apr 1	AMCA Annual Meeting– Lexington, Kentucky

### New Slide Set on the History of Dengue Research

Dr. Goro Kuno, who recently donated his dengue and DHF library to AFPMB for scanning into our database, has recently sent us an outstanding PowerPoint presentation on the history of dengue research. It comes complete with a narrative, and Dr. Kuno has given us full permission to send it along to all of you for use. You can see or download it on our website [afpmb.org](http://afpmb.org). You will find it on the front page, upper left, under the “What’s New” section. Submitted by CAPT Stan Cope, PhD

### Thank You

We would like to thank the men and women in the military for their dedication and service to our country. For those deployed, we are thinking of you and your families during the holiday season.

### Volunteer your time for the VMCA in 2010

The VMCA is dependent on its members to get things done. Take the time to volunteer for a committee in 2010. You can contact any board member or committee chair at any time to participate.

### VMCA organization mailing address Make sure you send all forms to the proper address.

## In Memory of LTC (Ret.) Benjamin F. McLaurin, Jr.

LTC (Ret.) Benjamin F. McLaurin, Jr., known to all as Ben, was born on January 29, 2942 in Yazoo City, Mississippi to the late Benjamin F. McLaurin, Sr., and Sezzie M. McLaurin. He departed this life on Monday morning, December 7, 2009, at Potomac Hospital, Woodbridge, Virginia.

Ben was educated in the Coahoma County schools and graduated from Coahoma County Agricultural High School, Clarksdale, Mississippi, in 1959. In 1963 he graduated from Kansas State University with a Bachelor's degree in entomology. In 1965 he received a Master's degree in entomology.

He was commissioned as a second lieutenant in the U.S. Army Medical Services Corps in 1965. His career spanned over 25 years, with assignments in Korea, Vietnam, Germany and several CONUS assignments; he received numerous achievement awards, citations, decorations and medals throughout his career. In

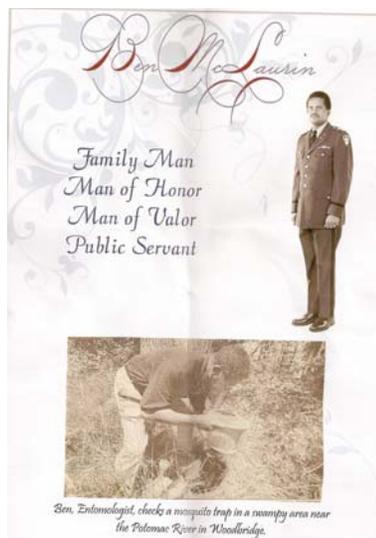

1990, Lieutenant Colonel McLaurin retired from Army Medical Command as a Medical Entomologist. He began his civilian career in 1992 as an entomologist with the Prince William County Environmental Services Division and remained in this position until July 2009.

Ben's loving memory will be cherished by his devoted wife Mary, Lake Ridge, Virginia, one son, Kevin M. McLaurin, one daughter-in-law, Kimmie McLaurin, two grandsons, Matthew and Sean, Adamstown, Maryland; one brother, Johnnie W. McLaurin, Altadena, California; one aunt, Jessie Ruth Willis, Springfield, Massachusetts; his mother-in-law, Mildred Porter, Cheraw, South Carolina; also left to cherish his memory are four brothers-in-laws and their wives; Robert L. Porter (Carolyn) Cheraw, South Carolina; Benjamin Nuriddin (Sandra), Charlotte, North Carolina; Richard K. Porter, Cheraw, South Carolina; Harold V. Porter (Ann), Cheraw, South Carolina; and a host of nieces, nephews, cousins and friends.

A memorial service was held on Saturday, December 12, 2009 at Old Bridge United Methodist Church, Lake Ridge, VA. Interment with full military honors will be held December 22, 2009, at 11:00 A.M., at Arlington National Cemetery.

In lieu of flowers, the family requests that donations be made to the American Cancer Society in memory of Benjamin F. McLaurin, Jr., online or at this address:

124 Park St. S.E.; Vienna, Virginia 22180; (703) 938-5500

## TMVCC Update

Greetings Everyone,

The last two meetings were held in Hampton at Sandy Bottom Nature Park. We had over 20 members at each meeting representing all of our cities. Thanks to our September 9th sponsor, Peter Connolly of AMVAC and Jeff Hottenstein and Phil Faris of Clarke for October 14th.

Our end of the year Appreciation Luncheon is postponed until December 16th due to the Nor'easter that dumped large amounts of rain on us for several days. It will be held at Chesapeake Mosquito Control, 900 Hollowell Lane, beginning at 11:00 A.M. and followed by a catered lunch. We will elect a new vice-president and secretary for 2010. I have enjoyed my time as President of the TMVCC and I wish everyone a happy, safe holiday season.

Lisa Wagenbrenner, President, TMVCC

## MAMCA Update

The Mid-Atlantic Mosquito Control Association will hold their 35th Annual Conference on January 19-21, 2010. The conference will be at the Hilton Savannah Desota Hotel in Historic Savannah, Georgia. The presentation lineup for speakers and topics is strong and I am sure it will be very informative. See you in Savannah.

Kirby

## VMCA Legislative Committee NPDES Permitting Updates

October 7, 2009 the EPA held a webinar to talk about the upcoming National Pollution Discharge Elimination System (NPDES) permitting requirement for the application of pesticides to, over or near Water of the US (WOUS). You can review this at the following link. <http://www.h2osci.com/News/EPA%20Aquatic%20Pesticide%20Webcast%2010.7.09.pdf>.

On December 9, 2009 we held an informal meeting with a group from Virginia Department of Agriculture & Consumer Services (VDACS) to talk about our industry and offer assistance in providing information. VDACS regulates pesticide applications in Virginia. The upcoming NPDES permit for pesticide applications to WOUS will be regulated by The Virginia Department of Environmental Quality (DEQ). VDEQ regulates issues concerning WOUS in Virginia.

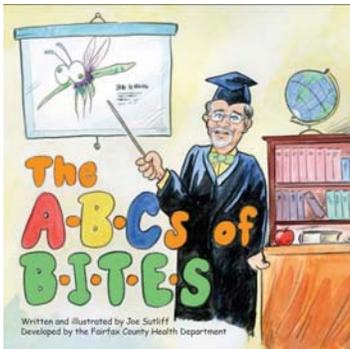

Municipalities that currently have a NPDES Storm Water Permit, regulated by Virginia Department of Conservation & Recreation (DCR) will likely still be required to obtain a NPDES permit for pesticide applications to, over or around WOUS. Note that DCR regulates Virginia's Storm Water Program. We are currently working with DEQ to build a Draft permit that will be available for public comment April 11, 2010.

The focus of this permit will include Mosquito Control, Gypsy Moth Control, Aquatic Pest Control and anyone that applies pesticides to, over or around water. The definition of "around" water has not yet been determined. We have great hopes of having enough input to make this as painless as possible. If your organization applies pesticides to, in or around waters of the US, you need to contact us and provide input.

## A B C of Bites

### Education and Outreach is a Year Round Effort

Submitted by: Carl Sivertsen, Fairfax County

For the past few years the Fairfax County program has aggressively reached out to the community with its mosquito messages. Fliers, PSAs, brochures, calendars, fly swatters and candy bugs and we were always well-received by the community - yet we were lacking in the area of young child and parent education.

Between the 2008 and 2009 mosquito seasons, the DCIP staff worked on several children's books in the hope of coming up with an educational tool that would work with young families. It was during these months of trial and error that we discovered that writing a children's book is not easy.

Finally, we decided on an ABC book -- it sure sounded simple. How hard could it be to come up with words, phrases and pictures for 26 letters? Well it was hard and it was challenging and at the end it was fun.

We were coming to the end of the 2009 mosquito season and the books were not yet ready. In mid-September, the Fairfax County Disease Carrying Insects Program received its shipment of around 10,000 children's books. We were happy to have them in hand and then came to the realization that the season is almost over and mosquitoes were not a concern of the community. As many of you know the Fairfax County program does not lack ingenuity in the area of marketing its program. With only two community events on the calendar, one at the end of September and the other in October we were worried about getting these books into circulation. Then an idea came up-- Let's have a meet the artist and get an autographed book! Joe Sutliff, the artist for all our calendars and this book, agreed to come to the events. For two days on different weekends, Joe signed books for the kids and several thousand books were put into circulation.

We were so happy to see the community reaction to these books. The parents and kids loved them and our elected officials did too.

But the story does not end here.

All year long, H1N1 has been grabbing the headlines and has been the focus of the public health community. H1N1 vaccines have now become available and mass clinics were being held at the Fairfax County Government Center. The goal for each clinic was to vaccinate up to 12,000 people. As public health officials, the Disease Carrying Insects Program staff were called in to work the very long lines and be a combination of greeter and information official. It is often said that good luck is where opportunity and preparedness meets-- well on Saturday, November 7, 2009, DCIP got lucky. Thousands of young children and their parents would be standing in line for hours with nothing to do while waiting for a vaccine-- that was our opportunity. And we came prepared: a supply of ABC books, a captive audience, and an abundance of staff. The ABC books were almost as popular as the flu vaccine. The kids for a book and the parents had a happy and quiet child.

We share this with you to simply remind you that education and outreach is a year-round activity that can support the other parts of your program by showing the community that you care about them as you do the work of mosquito control.

## Remember to Vote– Meet the Candidates

Election ballots are being mailed out next month to all regular members. If you are a regular member and do not receive a ballot in the mail contact Jo Ann Beasley. Mail back your ballots or bring them to the annual meeting. All ballots must be in before the business meeting.

This year we have two outstanding candidates for one vacancy on the board of directors, the office of First Vice President. The candidate with the highest number of votes will take office of First Vice President.

### **Lisa Wagenbrenner**

Lisa Wagenbrenner is head of the Biology Department for Chesapeake Mosquito Control. She oversees all aspects of the arboviral surveillance program that includes trapping, speciation, data management, and sentinel chickens. Prior to her work in Chesapeake, Lisa was employed as the biologist in Hampton Mosquito Control for 3 ½ years. In Hampton, she was instrumental in developing a new and improved sentinel chicken program. While working in Hampton she became involved with the Tidewater Mosquito Vector Control Council and served as secretary, vice-president, and president. As president of TMVCC, she served one year on the Virginia Mosquito Control Association Board. She is also an active member of the Tidewater Regional Arboviral Surveillance Team. In 2004, Lisa graduated with honors from Old Dominion University with a Bachelor of Science in Marine Science. While obtaining her degree, Lisa was employed as a seasonal mosquito control intern for the City of Virginia Beach. This experience was influential in her career path into mosquito control. Lisa enjoys being involved in the mosquito control community and values her camaraderie she has developed with her colleagues over the years. Training and education are a component of her career that she believes is an important part of any organization or community.

### **Lauren Wright**

Lauren Wright began working in mosquito control in the summer of 2001 for Clarke Mosquito Control. Since that time Ms. Wright has been involved in mosquito control situations in various states. Ms. Wright currently oversees operations and contracting for Clarke's Manassas, Virginia office. Ms. Wright serves as the eastern regional representative for Clarke's social responsibility committee. Ms. Wright is a graduate of Michigan State University with a degree of Fisheries and Wildlife Management.

## 2010 Annual Meeting Tentative Program

Wednesday, February 17, 2010

- 8:00 AM Registration & Refreshments
- 9:30 AM Opening Ceremony & Introduction of Officers
- 9:40 AM Official Welcome & Opening Remarks
- 9:50 AM Virginia Arboviral Surveillance Update, Dr. David Gaines
- 10:30 AM Radford University– TBD
- 10:50 AM TBD
- 11:15 AM VDACS Info and Updates, Gary Young
- 12:00 PM Lunch (on your own)**
- 1:30 PM Dengue Fever in the Southeast, U.S., Dr. Gary Clark
- 1:55 PM Application of Mosquito Larvicides with Ultra Low Volume Sprayers, Speaker TBD
- 2:25 PM Barrier Treatments: An Alternate Adulticiding Option, Joe Andrews
- 2:40 PM Natular™ XRG Formulation Field Trial on a Former Dredge Spoil Site in Portsmouth, VA, George Wojcik
- 3:05 PM Break**
- 3:25 PM Identifying females of *Oc. atlanticus* and *Oc. tormentor* and similar species, Dr. Bruce Harrison
- 3:55 PM National Discharge Elimination System of Permits Update, Joe Conlon
- 4:10 PM Communication & Community Support, Carl Sivertsen
- 4:25 PM TBD, CPT Stan Cope
- 4:50 PM American Mosquito Control Association Update, Joe Conlon
- 5:00 PM Adjourn**
- 6:00 PM Ice Breaker**

Thursday, February 18, 2010

- 7:45 AM Registration & Refreshments
- 8:15 AM RAMP testing, Dr. David Gaines
- 8:35 AM RAMPing Up: Our first year of experience with the RAMP WNV testing system, Joshua Smith
- 9:00 AM Using Resting Boxes to Collect and Analyze Blood fed *Anopheles* near the Potomac River, Andrew Lima

**Thursday, February 18, 2010 Continued**

- 9:30 AM Parasites: So you Think YOUR Life Stinks, Joe Conlon
- 9:50 AM Break**
- 10:10 AM USDA Center for Medical, and Agriculture and Veterinary Entomology, Dr. Gary Clark
- 10:30 AM Literature Retrieval System, Rich Robbins
- 11:15 AM The Emerging Use of Robotics in the Pest Control Industry, Jim Reindfleish
- 11:35 AM Outreach– A Program Multiplier, Tom Gallagher
- 12:00 PM Luncheon Buffet, Awards, & Entertainment**
- 2:00 PM Two years of the Zumba and BG Sentinel traps in Fairfax County Mosquito Surveillance System, Joshua Smith
- 2:20 PM Feeding habits of *Cx. pipiens* in California, Matthew Montgomery
- 2:45 PM Energy Synthesis and Mosquito Vector Competence in Arboviruses, Dr. Rajeev Vaidyanathan
- 3:05 PM Break**
- 3:25 PM GIS mapping of Eastern Equine Encephalitis, Jayne Deichmeister
- 3:40 PM Mapping Rift Valley Fever potential in Virginia, MAJ Christy Tedrow
- 4:00 PM Vendor Presentations**
- 5:00 PM Adjourn**
- 6:30 PM Biting Time/Social**

**Friday, February 19, 2010**

- 8:30 AM Illegally Dumped Tires... A Collaborative Approach, Jennifer Welch
- 8:50 AM TBD, Radford University
- 9:10 AM Ticks at Fort Eustis, Tim Christensen
- 9:30 AM Break**
- 9:50 AM TBD, Norfolk Lab
- 10:10 AM TBD
- 10:30 AM Mid-Atlantic Mosquito Control Association Update, Kirby Foley
- 10:40 AM Website Update, Kirby Foley
- 10:50 AM State Report, Phil Meekins
- 11:10 AM Business Meeting and Door Prices, Lane Carr**
- 12:00 PM Adjourn**
