President’s Message

Hi everyone. It is almost unbelievable that nearly a month has passed since New Year. Hopefully everyone had a safe and happy celebration. It is always an exciting time to enter into a new year with a fresh mosquito season soon to follow. Last year was full of many curve balls and only time will tell what this year will bring. We are a strong organization with dedicated workers who will rise up and provide impeccable services to our citizens. These new challenges help to make our organization stronger each day.

Our VMCA annual meeting is to be held at the Suffolk Hilton Garden Inn, February 4-6, 2015. This is a great time to come together with colleagues and learn what is new and exciting in the world of mosquito control. Our work is always changing and it is a great opportunity to keep up-to-date. It is always a great time and I hope that you all will be able to attend the meeting.

Please be sure to cast your vote. We have two outstanding candidates (see page 2) who are eager to serve on the Executive Board. Members who do not have an email address will be able to vote in person at the annual meeting.

We have new shirt designs for this upcoming meeting. Be sure to stop in and get them quick. We ordered a limited supply and they will be sure to go fast.

This past year has been quite an experience for me. Thank you for the privilege to have served as your President. It has been an honor to work with so many different members in our organization. The hard work that so many of our members give is the backbone to this great organization. Thank you to those of you who work so diligently.

As I end this message, I would like to say that it has truly been a pleasure to work with so many great people that are so dedicated to public health. I hope to see everyone at the annual meeting next month in Suffolk.

Jennifer Pierce, VMCA President
Announcements

Upcoming meetings

Virginia Mosquito Control Association Annual Meeting
February 4-6, 2015
Suffolk, VA

American Mosquito Control Association Annual Meeting
March 29-April 2, 2015
New Orleans, LA

Entomology Society of America Annual Meeting
November 15-18, 2015
Minneapolis, MN

Have information on meeting that may be of interest to VMCA members?
Attend a meeting and want to submit a summary?
Send it to the editor (see page 8)!

Candidates for First Vice President

Brian Ketchum, City of Newport News

George Wojcik, City of Portsmouth

Vote online!
Check your inbox for the email from Penny (sent on or about January 8) for bios and ballot

Answer on Page 4.
Proposed changes to the VMCA By-Laws

Article XIII, Section 1 states that changes to the bylaws must be approved by the executive board and sent to the membership at least 30 days prior to the annual meeting. Below are the changes to the bylaws recommended by the board. These will be discussed and voted on at the annual meeting; a 2/3 vote of the members present is needed for passage. In the amended section below, additions are indicated in **bold, red text**.

**Article V  Officers and Committees**

**Section 1. Officers**

A. The association officers shall consist of the president, president elect, vice president, first vice president, secretary treasurer, and current past president. The MAMCA representative, Sustaining member/Industry representative and TMVCC chairperson are special non-voting officers. *Amended Feb. 14, 1997.*

**Article VII. Nomination and Election of Officers**

**Section 1. Nominating Committee.** The nominating committee shall be established annually and will be chaired by the current or serving past president.

**Section 2.** The nominating committee shall submit to the executive committee its nomination(s) for each office to be filled in the ensuing year. All nominations, including write-in candidates, shall carry the consent of the nominee and assurance that they will serve if elected.

**Sections 3.** The nominating committee chairperson shall prepare an election ballot containing the names of the nominees for offices with space for write-in candidates for each office. The ballot shall:

- Be reviewed and approved by the VMCA executive board and sent to all voting members at least six weeks prior to the annual meeting.
- Automatically contain the name of the President Elect as a nominee for the office of President.
- Contain at least two qualified candidates for the office of First Vice President.
- Voting must be completed before 5:00 PM the day before the annual business meeting.

New voting members or voting members who have not completed the voting process will be able to do so at the annual meeting. In the case of a tie for any elected office, the election shall be decided by the majority vote of the voting members present at the annual business meeting. There will be no nominations from the floor during the business meeting.

**Section 4. The sustaining members shall select a representative to sit on the Executive Board for a two year term.**

*Rationale:* The Board would like to include a sustaining member/industry representative on the Executive Board. The rep should have a two-year term to be selected by the sustaining members and approved and appointed by the Board. The sustaining member rep would be a non-voting member of the board.
York County reinstated its mosquito trapping program in the 2014 season using CO\textsubscript{2} baited CDC and BG traps. There were 116 traps set between May and September.

The top species captured was \textit{Aedes albopictus}, accounting for 27% of the total. \textit{Aedes albopictus} populations peaked in late August. Second was \textit{Culex salinarius} accounting for 25% and peaking in late May. Third was \textit{Culiseta melanura} at 17%. The \textit{Cs. melanura} populations stayed steady throughout the season with the largest captures in September.

This figure shows the top 10 mosquito species captured in York County, Virginia between May 1 and September 30, 2014. Number of mosquitoes captured and percent of total capture are displayed for each species.

Submitted by Leah Aguilar

\textbf{What’s That? Answer}

That is Japan, Tokyo specifically. In 2014, Japan had its first cases of locally-acquired dengue since 1944. Numerous cases were associated with several parks in the city of Tokyo. The vector? \textit{Aedes albopictus}.

More details can be found in the December issue of the Society for Vector Ecology’s newsletter, available [here](#) (PDF).
