

Measure + tile square footage

Fill this in the room. Add 10% waste for straight field tile, 15% shower, 20%+ mosaic / diagonal / handmade.

Room / job _____ Date _____

Shower / wet area

Surface	W or L (ft)	H or W (ft)	Sq ft (×)	Notes
Floor / pan	_____	_____	_____	_____
Back wall	_____	_____	_____	_____
Left wall	_____	_____	_____	_____
Right wall	_____	_____	_____	_____
Curb (top + faces)	_____	_____	_____	_____
Niche (all inside faces)	_____	_____	_____	_____
Bench (top + faces)	_____	_____	_____	_____
Ceiling if tiled	_____	_____	_____	_____

Rest of the room

Surface	W or L (ft)	H or W (ft)	Sq ft (×)	Notes
Bath floor (outside shower)	_____	_____	_____	_____
Vanity wall / backsplash	_____	_____	_____	_____
Other wall	_____	_____	_____	_____
Window returns	_____	_____	_____	_____

Kitchen / other

Surface	W or L (ft)	H or W (ft)	Sq ft (×)	Notes
Floor	_____	_____	_____	_____
Backsplash	_____	_____	_____	_____
Island faces	_____	_____	_____	_____
Other	_____	_____	_____	_____

Add it up

A. Total measured square feet _____

B. Waste (× 1.10 field × 1.15 shower × 1.20 mosaic / diagonal / handmade) _____

C. Tile to buy (A × B) _____ sq ft Extra box for attic / future repair: yes / no

Trim: mitered / Schluter / quarter-round Linear feet of outside corners _____

This is for ordering tile — not a bid. I still measure in the house before I price labor.
