## *About Thaba Tholo*

Welcome to Thaba Tholo, a 37,000-hectare game farm in the Limpopo Province of South Africa. Established in the late 1980s, our farm was formed by consolidating several properties and creating a company to manage them as a single ecological unit. This allowed us to reintroduce the Big Five and other rare species, fostering a thriving ecosystem.

Our mission is to protect biodiversity and conserve species, with a focus on endangered ones. We believe that Africa's wildlife treasure should be shared with all who live on this continent. To achieve this, we continually develop our farming practices to enhance and expand the gene pool of African wildlife.

Our breeding approach prioritizes quality and vibrancy, aiming to produce specimens that will diversify and strengthen external populations regionally, nationally, and internationally. To support this goal, we've adopted employment and social development models that benefit local South Africans and ensure they share in our country's wealth.

At Thaba Tholo, we're committed to creating a sustainable ecosystem where rare and endangered species, including the Big Five, can thrive. We safeguard genetic diversity by maintaining optimal numbers of each species, ensuring a healthy environment and habitat. We take great care to improve habitat quality and ensure sustainable, environmentally friendly farming practices.

Our vision is to give back to nature, preserving the beauty and majesty of African wildlife for future generations. We strive to make a positive impact on the community through job creation, social responsibility initiatives, and collaborative efforts.

*The environment and community must be better off because we are here*

4. Notice must be given in advance that a sale by auction is subject to—
  - a) a reserved or upset price; or
  - b) a right to bid by or on behalf of the owner or auctioneer, in which case the owner or auctioneer, or any one person on behalf of the owner or auctioneer, as the case may be, may bid at the auction.
