# About Thaba Tholo

Welcome to Thaba Tholo, a 37,000-hectare game farm in the Limpopo Province of South Africa. Established in the late 1980s, our farm was formed by consolidating several properties and creating a company to manage them as a single ecological unit. This allowed us to reintroduce the Big Five and other rare species, fostering a thriving ecosystem.

Our mission is to protect biodiversity and conserve species, with a focus on endangered ones. We believe that Africa's wildlife treasure should be shared with all who live on this continent. To achieve this, we continually develop our farming practices to enhance and expand the gene pool of African wildlife.

Our breeding approach prioritizes quality and vibrancy, aiming to produce specimens that will diversify and strengthen external populations regionally, nationally, and internationally. To support this goal, we've adopted employment and social development models that benefit local South Africans and ensure they share in our country's wealth.

At Thaba Tholo, we're committed to creating a sustainable ecosystem where rare and endangered species, including the Big Five, can thrive. We safeguard genetic diversity by maintaining optimal numbers of each species, ensuring a healthy environment and habitat. We take great care to improve habitat quality and ensure sustainable, environmentally friendly farming practices.

Our vision is to give back to nature, preserving the beauty and majesty of African wildlife for future generations. We strive to make a positive impact on the community through job creation, social responsibility initiatives, and collaborative efforts.

The environment and community must be better  
off because we are here

# DO YOU HAVE GROUND-HORNBILLS ON YOUR PROPERTY?

They breed slowly and can live up to sixty years and this slow life history, and this, combined with many human threats (secondary poisoning, persecution, loss of nest trees and habitat), is what is driving the ongoing decline of the species. Game farms hold some of the best habitat left — if a group forages on your land, you are already part of this bird's future.

- 2.1. The prospective Buyers and Buyers shall strictly observe the instructions from the independent auctioneer where bids are accepted from the attendees and online bidding platform.
- 2.2. The prospective Buyers and Buyers and/or its representatives, as the case may be, shall take reasonable steps to ensure that he or she is connected to the internet. - 2.5. Once a bid is made it cannot be withdrawn.
- 2.6. Neither the Auctioneer, the Sellers' or the Auctioneer's representatives will be liable for any failure in connectivity or software while using the online bidding platform.
- 2.7. Neither the Auctioneer, the Owner / Seller or the Auctioneer's representatives accept any responsibility for any Internet interruption of connection of failure of software that leads to the bidder being disconnected from the live auction, irrespective of whose connection is interrupted. The Auctioneer accepts no responsibility for the loss of potential purchases, if a bid is not recorded due to the interruption of the bidder or if the online system goes offline during the auction process.

### 3. TIMED AUCTION (IF APPLICABLE)

The lot will only close if a final bid on the lot is received and stands alone for a period equal to the Extension Period.
- 3.4.4. The "fall of the hammer" on a lot for the purposes of the timed auction is defined as the date and closing time published on the online bidding platform and/or the Seller's/Auctioneer's public websites, alternatively at the date and time a final bid on a lot stands alone for a period equal to the Extension Period, whichever occurs last.
- 3.4.5. All lots on sale on the timed auction will have a minimum starting bid price which will be indicated on the online bidding platform. Any bid above the minimum starting bid price will not necessarily be successful as the lot may be subject to a reserve price. Should the aforementioned occur it is advised to make contact with the Auctioneer as soon as possible to obtain instructions from the Owner/Seller to explore the viability of entering a transaction. This does not create any right of refusal nor does it impose an obligation on the Owner/Seller or the Auctioneer to enter any transaction.
- 3.4.6. The minimum bidding increment may vary per lot but is specified on the online bidding platform.
- 3.4.7. Once a bid is made it cannot be withdrawn.
