THABA THOLO

TITANS

Measured Success

GUARANTEED

AN AUCTION OF TITANS

Measured success guaranteed

At Thaba Tholo, conservation is our passion. We work hard at providing our herds with an ecological habitat that optimises animal wellbeing. Our annual auction of prime genetic material forms part of our contribution to the quality game breeding industry throughout the country.

One area of specific interest is our hands-on rhino conservation programme. This innovative opportunity entails an in-veld experience that lets you take part in activities usually reserved for vets, rangers and our own wildlife specialists.

You will get on-the-ground, first-hand knowledge of rhino behaviours, personalities and characteristics. Best of all, by getting involved with hands-on conservation you are assisting with an additional revenue stream to conserve these magnificent animals.

BID ON LOT ONE AND SHOW US YOU CARE TOO

To support our hands-on rhino conservation programme, Lot One of our live auction

offers a party of six wildlife enthusiasts the opportunity to experience a life-changing day in Thaba Tholo's unique Big Five bushveld, together with our specialised conservation team.

BIG NAME SABLES, FOR SURE

This year we have pulled out all the stops to offer sables at the very top end of the available genetic spectrum. Look no further than BZN-sired 54" Lerumo, a titan amongst titans.

This young sable bull, the Spear of Thaba Tholo, has a pedigree to make your eyes water. He is only five years and three months old, which means he is sure to grow more, while offering you many years of high-quality breeding to come.

Many more terrific sable lots are on offer on both the online live and time auctions.

BODACIOUS BUFFALO

The outstanding range of female buffalo on offer this year includes the fearlessly feminine, 52" Inala-sired 39⁷/₈" Keteka as

Lot 23, amongst other high-quality female buffalo lots. She sells with a Magnum heifer calf and is certified in calf to Bheka.

Lot 24 is 36¹/₈" Lesedi, also sired by 52" Inala. She sells with a Magnum heifer calf and is certified in calf to Bheka.

Lot 25 offers 35¹/₈" Nia. Sired by 51+" Okamoso (who is an outstanding son of Bayeto), Nia has a 40⁶/₈" dam (VB127 sired by Matetsi). She sells with an Okamoso heifer calf and is certified in calf to Okamoso.

A QUALITY CATALOGUE, FULL OF TITANS

Make sure to peruse the full catalogue carefully, as we have assembled lots judiciously positioned to offer all our friends the genetic quality and diversity which has become the hallmark of Thaba Tholo over decades.

Thank you for your interest in our auction this year.

From all of us at
Thaba Tholo Game Breeding

Confidence Rule 55:

YOU DON'T HAVE TO BE A FINANCIAL EXPERT. YOU JUST HAVE TO PARTNER WITH ONE.

It's not always easy making financial decisions on your own. With a Sanlam financial planner, you're with someone who wants what you want. Our accredited advisers can give you expert advice, and help you shape a financial plan that can help you achieve your goals, so that you can live with confidence knowing you're on track to a better financial future.

We can help you with:

- Financial planning
- Estate planning
- Life cover
- Disability cover
- Investments and savings
- Short term insurance
- Retirement planning
- Saving for education

Contact us at Elbro BlueStar for professional financial advice.

VIRTUAL LIVE AUCTION RULES

1. To register for a Timed auction: SA citizens must be in possession of a South African ID and Foreign Nationals must be in possession of a valid passport.
2. In order to be eligible to participate in a Timed auction, you are required to have registered online through the app, and to have agreed to all the Terms & Conditions of the sale.
3. Do not share your login details with any person. Should you share your details with any other person or party, you will be liable for all successful bids which originate from your account.
4. Timed auctions are online or app auctions displayed on our website or app, and which are subject to the Auctions Conditions of Sale and the regulations of the Consumer Protection Act.
5. The Timed auction is automated.
6. The viewing of these lots is done via our website, or auction app, and will also be available in pdf format.
7. All lots on the Timed auction will have a minimum starting bid which will be indicated.
8. A minimum bidding increment will also be applicable as indicted and may be automated.
9. Any bid equal to or above the minimum bid at closing, will be the successful bid.
10. All lots will open at a predetermined time, with an indicated end time. The closing time will not be specific and can be anytime indicated, or decided by the auctioneers.
11. Each lot's opening and closing time will be displayed with that lot's information online or on the app
12. The closing time, after the 2 minute rule where applicable, will indicate the "fall of the hammer" of all bids on the Timed auction lots. To prevent last-minute sniping bids on timed auctions, a two-minute rule applies. If any bid is received within two minutes of a lot's closing time, the lot will automatically stay open for bidding for a further two minutes and the automated bid increments will be adjusted. This can continue until no bids are received within two minutes of closing for each lot.
13. The bid increments may vary per lot and will be clearly indicated on the app or online platform if applicable.
14. A bid cannot be withdrawn once made online or via the app, and where such bid has been accepted as a legitimate bid by the Sellers and the Auctioneers.
15. Ensure that the device you are using is synced to international GMT+2 and has good connectivity. The Auctioneers and Sellers are not liable for any break in connection or any software failure.
16. Brandon Leer Auctioneering Trust rules of auctions, including all terms and conditions, will be applicable.
17. Bidders using the app are advised to make sure their device stays powered up and connected. If the device is idle for example in power save mode, the device could lose connectivity. To make sure the app is connected and displays real time information, bidders are advised to close and reopen the app to refresh it after it has been idle for a while. Please make sure that your app is updated to the latest version of the app.
18. These Rules are subject to change as apps and online platforms change.

SPECIAL CONDITIONS OF THE AUCTION HIGHLIGHTED

1. The auction is under the control of the Auctioneers who will decide how the bidding will take place.
2. The Sale by auction is subject to a reserve price, unless specifically stated to the contrary by the auctioneer.
3. No animals will be loaded until full payment has been received for said animals.
4. The Auctioneers or any of their representatives will not accept any liability for any withdrawal of game, statements or guarantees, which may be given verbally by its officials.
5. Every bid is irrevocable and the Auctioneers retain the sole right to: reject any bid, indicate the highest bidder, change the order of the sale, suspend the auction during its course, declare a sale null and void in case of dispute and to put up the animals for resale.
6. The Buyer shall not be entitled to withhold payment of the purchase price as a result of any possible or pending claim that he/she may have against the Seller on the grounds of misrepresentation or for any other reason whatsoever.
7. Under no circumstances, can a Buyer who is also a Seller, and who has sold animals on the same auction, withhold payment as a contra against his purchases.
8. Buyers must register prior to the commencement of the auction.
9. If a registered Buyer allows another person to buy on his/her buyer's card, the registered Buyer shall be liable for payment of such purchases.
10. Any bona fide error committed by the Auctioneer before, during or after the auction does not bind the Seller and can be rectified immediately.
11. A person who is acting as an agent for a bidder must notify the auctioneer of this status prior to the commencement of the sale. This is also applicable to any person acting as an agent for a foreign bidder who is not normally resident in the R.S.A. and will have to settle the account in foreign currency.
12. Although no guarantee can be given that specific requests to bid can be complied with, Buyers can give bidding instructions to staff prior to the sale.
13. Persons who enter the auction site do so at their own responsibility and risk.
14. The Auctioneer can, without prior notice, add to, reduce or alter these conditions by making announcements before or during the auction.
15. The details contained herein are intended only as a guide to prospective purchasers who in their own interest should verify all statements, information, etc. given.
16. Buyers must make sure that they are satisfied with what they are bidding on.
17. Insurance must be arranged by the buyer. The Auctioneer may assist in this regard, if specifically requested in writing by the buyer. The ultimate obligation to insure the game purchased shall vest with the buyer, unless the Auctioneer has accepted a written instruction to arrange the insurance.
18. All game sold as family groups are mixed sexes and ages. Family groups will consist of more females than males unless otherwise specified.
19. PLEASE NOTE that bids are PER ANIMAL and not per lot! Buyers bid per animal to take the whole lot unless otherwise specified.
20. In the case of Boma animals, all game shall, immediately after the bid is knocked down, be considered as delivered to the Buyer and as such the risk passes to the Buyer. Upon acceptance of a bid, regardless of whether it is the highest and subject to reserve placed on the game by the seller, sale of the animals takes place and the entire risk thereof passes to the Buyer for the animals purchased.
21. The Buyer shall, prior to the sale, ascertain whether there are any defects in the game and any bid by a Buyer shall be considered as acceptance of the game in their condition at the time of the sale. Drugs, which may have been used to sedate animals, may have worn off at the time of purchase.
22. In the case of Catalogue animals, all risk will pass to the buyer once the animals are loaded onto the transport vehicle.
23. It is the Buyers responsibility to arrange the necessary permits and transport of the animals. Transport is available on the day of sale. Buyers should be able to accept delivery on short notice and must be available at all times.
24. The party, who is, in accordance with such law, regulation or proclamation, liable for the payment thereof, shall pay any VAT or levy payable in terms of any law, regulation or proclamation. The Buyer is responsible for the payment of VAT where applicable.
25. All payments are to take place via means of EFT, or by a bank guaranteed cheque payable immediately after the sale.
26. If payment by cheque is accepted, in the sole and absolute discretion of the Auctioneer, it takes place subject to payment thereof, and right of ownership of the animals shall pass to the Buyer only when the banker meets the cheque, and it does not constitute a novation of any cause of action pursuant to the provisions hereof.
27. The invoice issued between the Auctioneer and the Buyer will reflect the actual sale as decided by the auctioneers hammer.
28. THE AUCTIONEERS CONDITIONS ARE BINDING
