The Atel WB550 Apex supercharges your connection:

High-Performance Internet

Enjoy maximum Internet speeds on your devices, even in areas where 5G networks are hard to reach. Through High-Speed LTE fallback, you'll still experience speeds of up to 1.6 Gbps - so you can ensure you'll always be connected and ready to go.

Fast Setup

Access the Apex without breaking a sweat. With a simple plug-and-play approach, you'll be enjoying high speeds in no time.

Remote Monitoring

Configure and monitor your device from anywhere through a user-friendly web interface.

Perfect for Homes, Small Offices, and SMBs

Share the joy of high-speed data connection on up to 32 devices; useful for a wide variety of setups.

Access to the Latest Security Protocols

Through the Apex router's Wi-Fi 6 radio features, you can rest assured that your devices are operating at maximum speeds on a secure network.

Sleek and Compact Design

Only measuring 8" x 6.5" x 4.8" and weighing 1.1 lbs, the Apex can work with almost any amount of space. Worry less about setup and more about what matters most.

Requires activation on qualifying Verizon 5G or 4G LTE Business Internet plan. Promotion is not available to Public Sector customers. Offer valid : 08.01.23 - 12.31.23.
