Harbour Pointe Creations, LLC.

Freelance Social Media Marketing | Paid Search Ads

Video | Amazon | Data Analytics

LET'S REVIEW YOUR MARKETING

Website

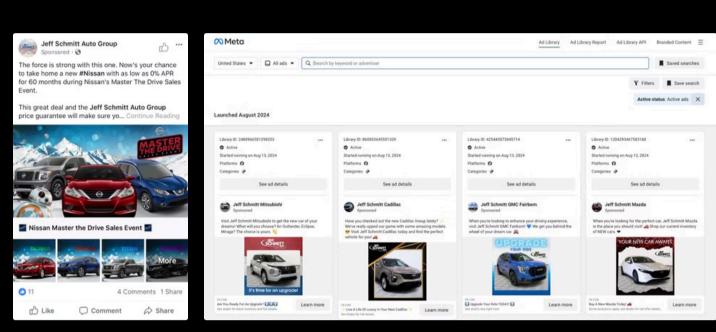

Example website: Let's look at your business website, and see what potential customers experience as they shop on your website.

Google + Meta Pixel tags?
 Yelp business listing?
 Google Business Listing?
 SEO (2,000 backlinks + NAP + Marketing Landing Pages + Local Directories/Citations + Sitemap Submittals)
 What are the goals you tried to achieve with your business website?
 Who is managing your website each month? How much is the cost for labor to keep your website current?
 How many leads are you getting each month from the website? How many leads convert to sales?
 Do you have landing pages for each segment of your ads campaign? Are you surveying the leads on Meta or is the survey to vet them happening on your landing page? What was your vision for the method used for lead generation?
 How are you following up with your leads? What CRM or email strategy are you utilizing to nurture you customer lifetime valued leads?

What are you doing with your website subscriber list? Are you re-targeting them as an audience in your Meta ads account? Is there a campaign to generate new Google reviews using your subscribers list and customer list?

Social Media Ads & Editorial Calendar Content

Example social media marketing paid ads and editorial calendar posts. Meta has to show a public library look-up tool of all their clients who spend on their sponsor ads.

You should be asking yourself, are you posting regularly on socials? Who is managing your social media content?

Are your Meta ads optimized for returns? If I called the leads generated from your ads, are they serious buyers?

Meta algorithm pushes 3-5% of your followers your posts. So, is your top performing content being boosted as ads?

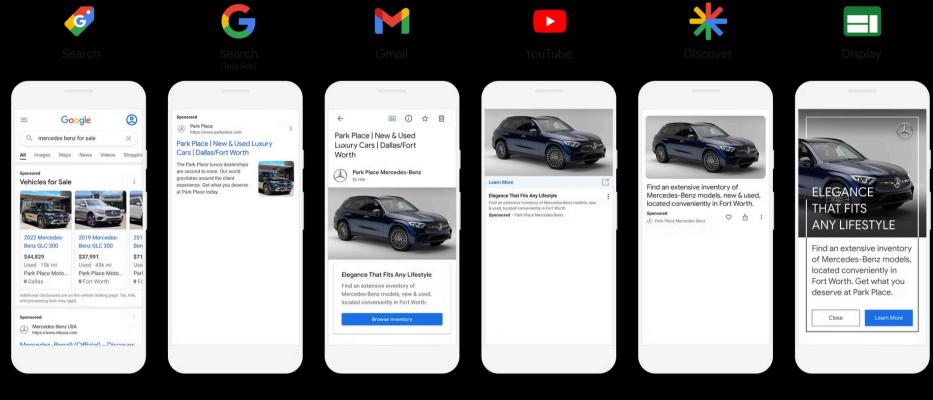

If you have a subscriber list on your website, are you uploading them to Meta to re-market to? Is there a campaign to generate new Google reviews using your list?

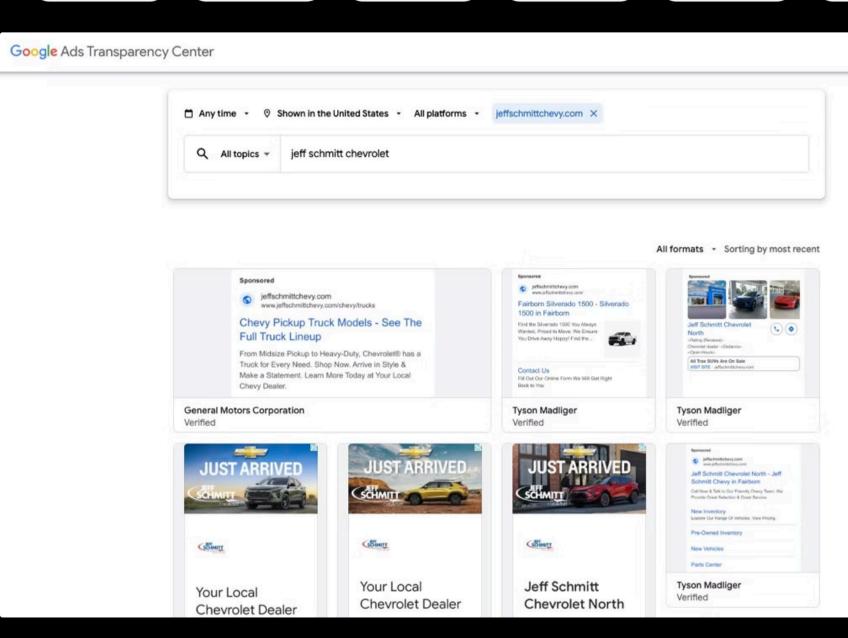

If you're paying for an agency, are they charging you 20-30% service fee on your ads budget, which lowers your actual paid ads budget. For example, \$1,000 Meta spend budget - 20% = \$800 for spend. At HPC, Inc. we want your ads to get the most out of your ads budget. Therefore, you're only charged 10% for ads management fee. The service fee on managing your ads is separate from the labor fee for the Social Media Marketing package in many agencies. The labor fee for Social Media Marketing covers creating viral videos, reels, and over-all content for social media, which will be used to push out boosted posts using the separate paid ads budget on Meta. For example, \$2000 for Social Media Package, \$500 for one-time setup fee, and 10% fee on a recommended \$1000 separate budget for Meta paid ads.

☐ What are your goals with social media? Are you getting the return you hoped for?

Are the paid ads optimized for high-impact or are they generic low-funnel quality?

Google Ads

Example Google paid ads. Google has to show a public library look-up tool of all their clients who spend on their sponsor ads.

Are you running Google ads? If "yes", is the quality of your ads being optimized or are they generic?

Do you get emailed a copy of the ads. So, that you can provide input before they run through your ads budget?

If you're paying for an agency, are they charging you 20-30% service fee on your ads budget, which lowers your actual

paid ads budget. For example, \$1,000 Google Adwords spend budget - 20% = \$800 for spend. At HPC, Inc. we want your ads to get the most out of your ads budget. Therefore, you're only charged 10% for ads management fee. The service fee on managing your ads is separate from the labor fee for the Paid Search Marketing package in many agencies. The labor fee for Paid Search Marketing covers creating viral videos, reels, and over-all content for paid search ads on YouTube, Google Adwords, Google Display ads, and the rest of the Google network. For example, \$2000 for Paid Search Marketing Package, \$500 for one-time setup fee, and 10% fee on a recommended \$1000 separate budget for Google paid ads. This applies to Yahoo and Bing paid ad networks as well.

Google ads is great for exposure, but are you getting the returns you hoped for?

Overall, are these marketing strategies achieving your annual revenue goals? If you're not on track to crush 2024 revenue goals, then maybe it's time to try something new. Are you interested in that?

SPECIALIZED IN HELPING AUTOMOTIVE & RETAIL BUSINESSES GROW

ABOUT:

Harbour Pointe Creations, LLC. was created by Von Galt who for the last 15 years created viral social media ads, paid search ads, and data analytics for car dealerships through a General Motors, Inc. advertising agency formerly called Cobalt, Inc. Today, Von and many other excellent Marketing Specialists joined their expertise together to offer topnotch enterprise digital marketing services to other industries, as well as automotive.
