

THIS NOVEMBER, YOU HAVE A CHOICE **FRANK TASBER**

★ CANDIDATE FOR RUSH TOWN SUPERVISOR ★

Frank Tasber is committed to
restoring trust in town government.

Dear Rush Residents,

My name is Frank Tasber, and I am a candidate for Rush Town Supervisor in 2026.

It has been a pleasure meeting many of you while I was out gathering petition signatures to earn a place on the ballot. You may also have received my earlier mailer introducing me and outlining my background and qualifications.

As we move closer to November, I want to share what you can expect from me if I am given the privilege of serving as your Town Supervisor.

Respectful and Effective Town Meetings

I will work to ensure Town Board meetings are respectful, timely, productive, and focused on the business of our community. Residents should feel welcome to participate and know that their voices will be heard.

Responsible and Transparent Financial Management

I will proactively manage the Town's budget, regularly review actual spending against budgeted amounts, and make adjustments when necessary to ensure that taxpayer dollars are used responsibly and effectively. Transparency will be a priority, and I will work to ensure that Rush residents have a clear understanding of how their tax dollars are being spent and the financial decisions that affect our community.

I will also ensure that department heads have timely access to the financial and budget-to-actual information they need to effectively manage their departments, control costs, and remain accountable for their budgets.

A Respectful Workplace for Town Employees

Town employees should be able to raise concerns, offer ideas, and respectfully disagree without fear of retaliation or termination. Good leadership means listening to the people who do the work every day.

I also encourage every resident to become more familiar with how our Town government currently operates. Town meetings are available to watch online through the Town of Rush website and its YouTube meeting recordings. An informed and engaged community makes for better local government.

Thank you to everyone who has already taken the time to speak with me, share a concern, sign my petition, or offer your support. I look forward to meeting many more of you as I continue my door-to-door campaign throughout Rush.

Best regards, *Frank Tasber*

Clear Priorities and Accountability

I will focus on the most important issues affecting Rush and our Town government's ability to operate effectively. For major priorities, I will establish clear plans, responsibilities, timelines, and follow-through so residents can see the progress being made.

Transparency and Open Communication

I will be transparent with the people of Rush and genuinely listen to your concerns. I believe residents deserve straightforward answers and leadership without hidden agendas.

Protecting the Integrity of Town Systems

Access to the Town's information technology systems must be protected. I will safeguard my credentials and will not share access to Town systems with unauthorized individuals.

Independent Leadership

When you communicate with me, you will be communicating with me. Responses from my email will be my own. I will listen to residents, Town employees, and fellow Board members, but the decisions I make will be based on what I believe is in the best interest of the Town of Rush.

Future Direction of the Town

The Town of Rush recently updated its Comprehensive Plan with extensive input from residents. As Town Supervisor, I pledge to honor that community involvement by using the plan as a guiding framework for decisions that will shape Rush's future. I will ensure that the Town's priorities, policies, and initiatives reflect both the vision established in the Comprehensive Plan and the best interests of our residents.

These are some of the standards I will bring to the Supervisor's office if you give me the opportunity to serve.

You have a choice this November, and I respectfully ask you to consider giving me your support.
