OFFICIAL SPONSOR OF THE APTA

2018-19

PRODUCT CATALOG

PADDLE IS OUR PASSION.

Since 1995 Viking has been an innovator in game changing products in the sport of platform tennis.

Today, Viking is recognized as a leader in the sport and continues to play an active role in the growth of the sport and development of new product innovations.

TYLER FRASER

PADDLE TECHNOLOGY

Viking has been a leader in producing high performance platform paddles and equipment for over eighteen years. During this time, Viking has continued to use advanced engineering and the finest materials combined with revolutionary technologies taking our paddles to a whole new level – separating them from the rest of the field.

All 2018-19 models have an eye-catching matte finish, feature our GG (Grit Guard) area, and are made from our new performance hybrid material which offers:

- Various degrees of stiffness/elasticity due to its hybrid nature.
- High ductility and impact strength.
- Superior resistance under persistent force.
- Strong resistance to extreme temperatures.
- Water absorbent.

Each of our three families will continue to feature three different cores, ranging from stiffest (least give) to softest (most give), as follows:

- Mid+: stiffest core, features in all Pro models
- Mid: medium core, featured in all Lite models
- Low: softest core, featured in all prodigy models

Our continuous quest for manufacturing excellence, combined with the exclusive technologies listed to the right, is what separates Viking from the competition.

LISA RUDLOFF

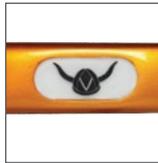

TRIPLE THREAT – Additional woven composite material located at 10, 2 and 6 o'clock on the paddle surface provides extra stiffness and perimeter weighting for increased stability and greater power on off-center hits.

CARBON MESH – Strips of carbon mesh material located on the rim of the top of the paddle provides even more stiffness for greater power and extra protection. Now players can expect even more life from their paddle!

GRIT – After extensive testing, we equipped all of this year's models with the ideal size and density grit, which allows players to experience extreme durability and control under any weather conditions.

VIBRATION DAMPENER – Soft Elastomeric material positioned in the throat area featured on *all our Prodigy models* absorbs shock on ball impact, reducing arm fatigue and injury.

EXTRA HOLES – Extra holes up to the maximum allowable limit, provides more ball bite for extra spin and control while enhancing aerodynamics and reducing paddle weight for ultimate maneuverability.

VIKING PRODIGY PADDLES – The lightest models within each paddle family. The best of Viking's technologies all come together in the Prodigy models for unsurpassed maneuverability and stability.

GRIT-GUARD (GG) – A small, smooth plate above the handle on either side of the paddle-face – minimizes players' direct contact with grit.

O-ZONE GG FAMILY

Ideal for players with a strong tennis background who have a higher swing speed and are looking for the optimal combination of maneuverability, power, and control. All new models feature our GG (Grit Guard) area.

- Weight (375g, 365g, 355g)
- Eye-catching matte finish
- Longest grips
- Core density among the three models: mid+, mid, low
- New performance hybrid material
- Smallest headsize within the line-up (82 sq.in.)

O-ZONEPRO GG **NEW**

The O-Zone Pro has long been a favorite among tournament and league players. Weighing in at 375g, the new O-Zone Pro is 10 grams (.4oz) lighter than last year's model but it is still designed as a control paddle for players with a high swing speed. The mid core density provides an excellent balance between power and control while the smaller headsize offers enhanced all-around maneuverability. A standout feature on all O-Zone models is the longer handle which provides a better grip on the two-handed backhand. *Used by Hall of Famer Brian Uihlein throughout his career and currently used by Johan duRandt, Alex Bancila, and Liz Jaffe.*

GRIP SIZE 4 1/4"
RETAIL PRICE \$164.99

- #7V099-891 Black/Purple
- #7V094-891 Black/Pink
- #7V090-891 Black

(limited edition)

(limited edition)

O-ZONELITE GG **NEW**

Returning to this year's line-up, the O-Zone Lite is the light version of the O-Zone Pro – it has the same characteristics but it is 10 grams (.4oz) lighter. If you like the feel of the O-Zone Pro but have a moderate swing speed and are looking for even greater maneuverability, this is the perfect paddle for you. *Used by John Hughes, Marek Czerwinski, Marco Grangeiro, Scott Kahler, Casey Watt, Brett Kraft, Lisa Rudloff, and Marcela Rodezno.*

GRIP SIZE 4 1/4"
RETAIL PRICE \$164.99

- #7V087-891 White/Purple
- #7V102-891 Black/Pink
- #7V098-891 Black

O-ZONEPRODIGY GG **NEW**

At 10 grams (.4 oz) lighter than the O-Zone Lite, the O-Zone Prodigy returns to this year's line-up and is the lightest model within the O-Zone family. Featuring Viking's proprietary Vibration dampener, the O-Zone Prodigy's lower weight is a result of its soft core density and the extra four holes enhancement. These factors result in enhanced power and optimal maneuverability, which make the O-Zone Prodigy particularly attractive to players with a slower swing speed.

GRIP SIZE 4 1/4"
RETAIL PRICE \$189.99
#7V088-891 Purple/White

RE-IGNITE GG FAMILY

Ideal for players who are looking primarily for power, a bigger sweet spot, and stability. All new models feature our GG (Grit Guard) area.

- Weight (385g, 370g, 355g)
- Core density among the three models: mid+, mid, low
- New performance hybrid material
- Largest headsize within the line-up (92 sq.in.)
- Eye-catching matte finish

RE-IGNITEPRO GG **NEW**

A long time favorite of tournament and league players alike, the Re-Ignite Pro features an oversized hitting surface and a soft feel due to its low density core. The Re-Ignite Pro is a great choice for heavy hitters who are looking for better control on their shots. *Used by Lea Morris.*

GRIP SIZE 4 1/4"
RETAIL PRICE \$154.99
#7V091-891 Black/Orange

(limited edition)

RE-IGNITELITE GG **NEW**

Our best-selling paddle is back with our new proprietary "Grit-Guard (GG)" to minimize players' contact with the grit surface. The Re-Ignite Lite is one of the top selling paddles within the last 10 years. It features the same oversized hitting surface and low-density core as the Re-Ignite but, at 15 grams lighter, offers superior stability and exceptional control without sacrificing pop. *Used by Juan Araya, Steve DeRose, Tyler Fraser, Mike Marino, Roxy Enica, Martina Ondrejko, and Jade Curtis.*

GRIP SIZE 4 1/4"
RETAIL PRICE \$164.99
#7V089-891 White/Orange
#7V093-891 Black/Pink
#7V100-891 Black

RE-IGNITEPRODIGY GG **NEW**

The Re-Ignite Prodigy is the lightest model within the Re-Ignite family, featuring the same low core density, the extra eight holes enhancement (for the maximum number of holes allowed), and Viking's proprietary Vibration dampener. The Re-Ignite Prodigy will appeal to players with a slower swing speed who are looking for greater control and better stability from an oversized paddle. *Used by Viki Stoklasova and Ana-Marija Zubori.*

GRIP SIZE 4 1/4"
RETAIL PRICE \$174.99
#7V092-891 Orange/Black

PADDLES

OZ GG FAMILY

Ideal for players who are looking for control. All-time best selling paddle. All new models feature our GG (Grit Guard) area.

- Weight (390g, 360g, 350g)
- Core density among the three models: mid+, mid, low
- New performance hybrid material
- Heaviest model (Pro) and lightest model (Prodigy) within the line-up
- Eye-catching matte finish
- Superior resistance under persistent force.
- Medium headsize (85 sq.in.)
- Strong resistance to extreme temperatures.
- Water absorbent.
- Various degrees of stiffness/elasticity due to hybrid nature
- High ductility and impact strength

OZPRO GG **NEW**

The number 1 selling paddle of all time, the OZ Pro continues to be a proven performer in the sport. Built with the highest density foam and featuring a carbon mesh rim, the OZ Pro paddle is the heaviest within our line-up line and offers unmatched control and exceptional stability at contact, making it the preferred paddle for players who rely on their drives.

GRIP SIZE 4 1/4"
RETAIL PRICE \$169.99

#7V095-891 Black/Blue

OZLITE GG **NEW**

The new OZ Lite is last season's Synergy: an outstanding light paddle with the exact specs as its former namesake and now a member of the OZ family. Featuring a new look, it offers the same Synergy trademarks: effortless power, exceptional feel and ultimate maneuverability and control. This is the choice for players getting into the game.

GRIP SIZE 4 1/4"
RETAIL PRICE \$114.99

#7V096-891 White/Blue

OZPRODIGY GG **NEW**

The lightest version within our entire line-up, the OZ Prodigy is last year's TT Pro Ultra, now part of the OZ family. A powerful paddle that offers that extra pop to players looking to generate more of their own pace without sacrificing feel and maneuverability. It features Viking's proprietary Triple Threat technology for enhanced stability on off-center shots, carbon mesh rim, new silencer dampener, and extra holes enhancements.

GRIP SIZE 4 1/4"
RETAIL PRICE \$184.99

#7V097-891 Blue/White

JUNIOR PADDLES

SMASH JR. GG

Now with our new "Grit-Guard (GG)" technology. The Smash is an ultralight paddle with a shorter handle design for exceptional maneuverability. Combined with the smallest grip size in the line, it's the ideal paddle for entry level and junior players getting into the game. The Official Paddle of the APTA Viking Junior Tour.

GRIP SIZE 4"
RETAIL PRICE \$89.99
#7V084-891

ZOMBIE JR. GG

The new Zombie paddle will revolutionize how the junior game will be played. The Zombie is the shortest and lightest paddle Viking has ever developed which will allow children as young as three and four to enjoy the game. For best performance, juniors should use the Viking Extra Duty Training Ball. The Official Paddle of the APTA Viking Junior Tour.

GRIP SIZE 4"
RETAIL PRICE \$79.99
#7V101-891
