## *About Us*

*We care and that's why we are Great Green World. Committed to make the modern world more sustainable and give our future generations a chance. We understand that it is not an easy endeavor, but we like to start in the right direction. With this mission in mind the company was started by Mr. Vivek Elango, a veteran in the field of international business and market research. The company exports and markets eco friendly disposable wares and organic coconut products.*
