## **Lee Stogner Joins Liquidax Capital as Partner and SVP of Digital Transformation & Integration**

Liquidax Capital is pleased to announce that Lee Stogner has joined the firm as a Partner and SVP of Digital Transformation & Integration. Lee has over 35 years of design, consulting, project management and business development experience across a range of industries.

Lee has driven growth at companies that include Digital Equipment, Fluor Corporation, Rockwell International and his own consultancy, the Vincula Group. His leadership has supported efforts in Business Innovation, Information Technology, Systems Integration, Digital Transformation, Project Management, Internet of Things and Artificial Intelligence. Customers around the world have benefited from Lee's expertise and leadership.

Throughout his working career, Lee has been active in both local and international professional activities. Lee is the Chair of the Carolinas' Engineering Cluster and a past Director of the IEEE Board of Directors. Today, Lee is active in promoting the development of the Internet of Things through his participation in the IEEE Smart Grid Initiative, the IEEE Transportation Electrification Committee and as a Steering Committee Member of the IEEE Internet of Things Initiative.

Lee is certified in Project Management by the Project Management Institute and brings an organized and focused methodology to the execution of Liquidax products and services.

In his role, Lee will be leading the management of digital transformation & integration project activities for all corporate clients across the Liquidax organization globally. Lee will also be participating in business development activities in support of the organization.

Daniel Drolet, Chairman and CEO of Liquidax stated “We are thrilled to have Lee join our team and bring his global expertise to our firm and clients. Lee has had a phenomenal career in providing innovation and growth to Large, Mid and SmallCap companies.”
