Happy New Year! 2025 will be a great year at the greatest club! There are so many reasons to be grateful – we've had so many volunteers! The boat parade was a huge success! Thank you Cherlyn, for all the work you put into it and selling tickets, Karen and Sarah F for helping out, and Steve / Michael for the clam chowder and hotdogs. Phil, Mason, and John (our friend) won first place in the boat parade competition! Congratulations! The Sea Scouts helped coordinate parking and striped our lot with new paint! I'd also like to thank Don & Beth for working so hard on the Christmas Party! Thank you, Ron, Chuck, and Don, for cooking the turkeys and helping with the potluck! Steve O also did a pozole meal, all donated, and it is greatly appreciated! Thank you, Glenda B and Cheryl, for doing the senior outreach for community events. They collected items for Multipurpose Senior Service Program (MSSP) to help frail seniors safely at home and delay or avoid skilled nursing facilities. Thank you, Linda W, for donating the additional camera, and Cherlyn for getting the inventory all computerized! Thank you David B for helping out when needed! We appreciate all our volunteers!

Our installation dinner / General Meeting will be Thursday, Jan 9<sup>th</sup> @ 6:00 with chicken marsala by Anthony! \$20/plate – sign up sheets are in the Presidential Hall. This will be a semi-formal event where we welcome in our new 2025 board and honor our 2024 board!

Founders Day will be held on February 15<sup>th</sup> – Sea Scouts will have a flag burning ceremony to properly dispose of worn-out or unserviceable US flags. Let's party like it's 1941!

Crab Feed will be held March 8th. **Please sell tickets!** Flyers and tickets will be available this week. Please bring a raffle prize and a dessert raffle. DJ Nett will be rocking it!

Let's show our bartenders Jenny, Courtney, Krystal, Kayla and Patti (janitorial) some love and appreciation at the employee appreciation potluck on Jan 12th! Steve and Micheal are doing tri-tip and chicken so please bring a side to share!

Per article XIV in our by-laws, each member will serve at least 8 hours a year. If a member is unable to put in their 8 hours, they may donate cash or material equal to their service. Please see a BOD member – we have many projects available. **We will have a work party on Jan 25<sup>th</sup>!** Please let me know if you can help or donate! Dues are due Jan 31<sup>st</sup>. They are \$250/year. If dues have not been received by January 31<sup>st</sup> you are no longer a member of the club per article XIV.

A reminder to not give out the code. Also, tabs have not been paid in a timely manner. The BOD decided that tabs need to be paid before leaving or within 24 hours. Once a tab reaches \$100 additional charges may be suspended.

Thank you to the following: Mario, Glenda, Jim, Doug and Toni who helped to collect ballots. Congratulations to the New Board of Directors: Linda, Terry, and Tomas. Our new 1<sup>st</sup> Vice President John F; 2<sup>nd</sup> Vice Rob; Secretary Kay; Treasurer Karen.

If you or know someone who would like to advertise in our bulletin for \$25 per ad (per year), please let the BOD know.

If you have a question, ask. If you have a complaint, let us know. Have a solution, even better. The suggestion box is a great tool, or come to a meeting. We are listening. Our officers and board are all volunteers.

Thank you to everyone who has made our club a success! Let's make 2025 a strong and prosperous year!

Amanda Combie  
President

Updated Dec. 18, 2023 from W.O.N (western outdoor news)

**DELTA, San Joaquin side** — The water is cleaner in the San Joaquin side of the Delta, but the striped bass bite has been spotty with some action in the main channel around King Island, but normally at this time of year, the linesides would be heading south toward Discovery Bay to find warmer water. The shad generally piles into the south Delta, but with the water temperatures in the 49- to 52-degree range, it is a few degrees warmer than normal. Fog remains a concern in the early mornings, and there is floating debris in the main channel, including large trees or logs. Bass fishing has slowed with the colder water temperatures, and the bite windows are few and far between. The warmest water is found along the north-facing banks on sloughs running east and west. Reaction baits are a good option on light fluorocarbon line along the outside edges of the weed lines where the bass are digging in to find slightly warmer temperatures. Umbrella rigs, underspins, or ripbaits are good options. Crappie continue to school up in the south Delta sloughs, and bank anglers along with boaters are picking off the palm-sized slabs. Finding clear water is the key to success.

Getting 20-50 fish per day with fish as big as 7-10lbs, average fish is 3lbs. Buzzbaits, whopper ploppers, and frogs have been the best top water action. Chatterbaits, and punching are also getting great results.
