Whether you'd like to collaborate closely with us on selecting colours, varieties, and design, or prefer to entrust us with the entire process, we are here to ensure your vision is brought to life.

When you book with us, you gain full complementary access to our extensive prop inventory—there are no additional charges for the use of vases, easels, arbours, stands, and more.

On your wedding day, we provide complete delivery services, ensuring that your bridal party florals are delivered directly to you and all on-site florals and props are expertly set up. Additionally, we offer the option to pack down florals and props the following day, leaving you free to focus on enjoying the moment.

Objectives & Timeline

Consult and Planning

The consultation is the first step in bringing your wedding florals to life. We offer both in-person and phone consultations to start the planning process. During your consultation, we will discuss all aspects of your floral vision, allowing us to provide an accurate quote and pricing on the spot. Whenever possible, we enjoy meeting with our couples in person to better understand their ideas and ensure we capture the essence of their vision for the big day.

Design

After securing our services, we will begin the detailed planning of your bridal party, ceremony, and reception florals. As part of this process, we offer the creation of color palette mood boards, visual concepts for bouquets, tablescape, and arbours, as well as curated variety lists—all designed to help you fully envision your wedding flowers.

Delivery

On your wedding day, we provide delivery of all florals and work closely with your venues and coordinators to seamlessly fit your florals into the days timeline.

Time Frames

We will provide you with a quote on your consult day, with any changes being welcomed up until 6 weeks before your wedding date. Final pricing following any changes is finalised 6 weeks prior.

Choosing fresh or artificial

We offer both high-quality fresh and artificial flowers, with the flexibility to combine the two to provide an optimal range of colors, varieties, and recommended products. Our approach takes into account factors such as weather, temperature, location, and the potential for reusing items.

We will guide you in choosing the best option based on the unique needs of your wedding.

For those considering artificial florals, we also offer the option to hire arrangements, helping to reduce waste while maximizing value for money.

To help you decide on Fresh or Artificial florals, during your consultation we provide demonstrations and the chance to hold, feel and see the flowers in person before you book.

We have an extensive in-store display of artificial florals and arrangements, allowing you to see exactly what your wedding florals will look like. There's no need to imagine the finished product—we can show you right away!
