

The Tesla Twins

By Alejandro Sanchez-Navarro

The gardener has returned and wants to harvest light. Planet Earth is in danger of extinction. A group of warmongers threatens to destroy the planet by playing with their nuclear warheads. The gardener has returned to claim his inheritance and help the planet with his free-flowing seeds of light and harmony for all of humanity.

A dramatic, orchestral electronic soundtrack with a driving tempo. In eight movements with a total length of 126 minutes. The instrumentation features prominent orchestral woodwinds, brass and string sections, including violins, violas, cellos, and double basses, playing both sustained chords and melodic lines. Electronic drums provide a consistent, driving beat with a strong emphasis on the kick and snare. Synthesizers contribute atmospheric pads and arpeggiated melodies, creating a futuristic and slightly ominous soundscape. 4 male baritones vocalists deliver spoken word and sung phrases with a commanding and theatrical tone, often layered with reverb and delay. A female soprano vocalist provides soaring, operatic melodies with another female contralto vocalist. A mix choir of sopranos, contraltos, tenors and bases with African ethnic voices. A rock-jazz fusion ensemble and a large percussion section. The score alternates between sections with full orchestral and electronic instrumentation and more sparse, vocal-driven passages. Production elements include heavy use of reverb on both vocals and instruments, creating a large, expansive sound. There are also moments of dynamic contrast, with sections building in intensity and then receding. The overall mix is full and powerful, with a clear separation of instruments.

The work has been conceived as a huge musical production at the service of a theatrical-film-immersive experience stage production.

1.-The Tesla Twins

Nikola Tesla had two daughters.
If you see them,
They look like a couple of beautiful and classy teenagers.
But they are about one hundred and twenty years old,
Yes, they are one hundred and twenty years old
and are very very well preserved
They bathe in eternal honey from Tibet
One is blonde and the other brunette
One is barbaric and the other is wild.
When they tell their stories,
The world lights up.

They like to dance and go out singing.

The beautiful and Barbaric blonde lives in her father's house in Wardencllyffe.
The police chief, marshal of New York, and head of Indian reservations protects her
and provides her with all kinds of care, dancing around her with feathers on his head
while she receives presidents and important figures who want to see the house
where her extraordinary father lived.

Yes, the house where her extraordinary father lives.

Get up, be ecstatic, bold and wild
Free yourself from the yoke of governments
and controlling idiots,
fake politicians, and media ass-kissers.
Everybody is singing with the twins

Nikola Tesla is a great rebellion
if we don't collect our inheritance,
the world will end.
if we don't collect our inheritance,
the world will end.
If we don't collect our inheritance,
the world will end.

The Wild elegant and intense brunette
styled as the Queen of the Balkans.
lives in the royal palace in Belgrade
where she gives orders to presidents and kings of the world
to wake up and hand over large sums of money
to build replicas of the Wardencllyffe Tower around the world

They are the Tesla twins
Yes, the Tesla twins truly two powerful comets
that no one can stop
dancing with the twins at the top of the tower
is an experience worth million millions and trillions
dancing with the twins at the top of the tower
when the whole world sings

If we don't collect our inheritance,
The world will end, if we don't collect our inheritance,
the world will end.

If we don't collect our inheritance

2.-Aristotle

The Presenter

From what I can see in this room
With a few honorable exceptions
All of you are asleep
Under the influence of a wave
of ignorance and boundless greed
Some will say that I am an impostor
That the real me died more than two thousand years ago
and that you are not willing to change your squalid point of view.
But I am as real as the two beautiful ladies
Who have called me to participate in this night of revelations.

I am the great Aristotle
I am the teacher of those who know.
The father of science and observant realism.
Without me,
you would still be eating rotten fruit and fish Inside a dark and cold cave.
without my logic and my methods,
your reasoning ability Would have remained stagnant
Like the dark wells of black gold
That today suffocates your mammalian lungs.
You are mammals, mammals of the class Mammalia.
You have hair and mammary glands.
You feed your young with milk.
You reproduce sexually through internal fertilization.
In other words, you are viviparous,
giving birth to live young.
YOU GIVE BIRTH TO LIVE YOUNG!
two-legged animals, animals with the ability to reason,
and for more than two thousand years
You have been using my methods to develop science and benefit all of humanity.

I am the great Aristotle
I am the teacher of those who know
the father of science and observant realism.
Listen to me and free yourself from all prejudice implanted in your heart.
Tonight, we are going to fly

Tonight, you will witness the extraordinary feat
of the daughters of Nikola Tesla
Whose history and heroism had remained hidden until now
Just like that of their incomparable father
to whom I pay tribute tonight
Admitting that he has been the only human being more intelligent than myself.
You will agree at the end of this night.
Tonight, your mind will be sealed
and your heart will awaken to a new vibrational frequency

I am the great Aristotle
I am the teacher of those who know
the father of science and observant realism.
Listen to me and free yourself from all prejudice
implanted in your heart.
Tonight, we are going to fly.

Thousands of years ago
in the nomadic place of my ancestors,
A strange gardener appeared.
Carrying olive seeds,
He swore before the gods
and before the great assembly of the people.
That with a little sun, water and earth
He could grow that little seed, in an olive forest.
Everyone in the village laughed out loud
and thought he was crazy
And although there was great resistance,
The ancestors chose to allow him to perform his divine magic
A great forest of olive trees was born,
thanks to his discovery
and humanity took a quantum leap
by accepting the gift of agriculture.
Nikola Tesla is that gardener
who thousands of years later returned to earth
to teach us how to spread seeds of light and convert them to alternating current,
Nikola Tesla is the gardener of light.
His discoveries have generated more resistance
than those aroused in the nomadic place of my ancestors
It is time to open your mind and look up at the stars.
We can cultivate and harvest the seeds of light
Like the gardener from the nomadic place of my ancestors,
whose discovery today feeds all of humanity.
Stop being sleeping humans,
awaken to the Tesla light.
Observe carefully the courageous deeds of the Tesla daughters.
Starting tonight you will no longer be the same,
a new human being will be born alive inside your heart
and the light of the stars will never leave you
Inside your heart

I am the great Aristotle
I am the teacher of those who know,
The father of science and observant realism.
Prepare to receive A bath of light like never before.
Accept the gift of the great gardener of the universe.
A bath of light like never before.
Accept the gift from the great gardener of the universe.

3.-Twins visit Uncle Pier

*On how the Tesla twins saved
Commodore Morgan and his banking comrades
from going to hell.*

In early 1912,
The Tesla twins met with Commodore Morgan,
whom they affectionately call Uncle Pier.
Uncle Pier knew they were coming to ask him for something,
So, he quickly decided to organize the visit at his private club on Jekyll Island,
without a doubt, Uncle Pier was the richest man in the world
and for some time, he financed the meteoric career of the great Nikola Tesla.
However, despite his great financial talent,
Uncle Pier couldn't understand the extraordinary business vision
that could be realized by activating the wireless power transmission tower
that Nik Tesla had built in Wardencllyffe to spread throughout the world

the effects of the discovery of energy that flows freely in the atmosphere
and can be cultivated, harvested, and converted into alternating current.

Freely flowing in the air
Freely flowing in the air
Cultivable energy
small beams of sunlight with a tiny charge of Electromagnetic energy
That we can harness
Electromagnetic energy that we can harness

When the twins arrived At the Jekyll Island club It was a historic moment of great luminosity
A procession of illustrious guests.

Owners of at least one quarter of all wealth in the world
came out to greet the incomparable twins and their honor guards festively.
The twins knew That Congress was being bribed
by the very same personalities who now came out to greet them
And that within a year The Federal Reserve would be a concrete fac.

They also knew, and Uncle Pier Knew
that they knew
that the sinking of the Titanic
Was the work of Uncle Pier himself
A business strategy
Removing obstacles
An abominable strategy only Conceivable by Uncle Pier
only conceivable by Uncle Pier.

What hurts the twins the most
was that on that ship
They had lost their father's great friend and sponsor, John Jacob Astor.

The commodore came out to meet them.
He embraced the twins as if they were his own daughters
and immediately entered singing
into the great hall of beauty and attractive temptation

Discarding any protocol,
The barbaric blonde began her speech
amid the sepulchral silence of all those present.

We know what you agreed upon.
In this very hall Just two years ago

You detonated your plan
To establish your Federal Reserve
And we also know the brutal way in which you eliminated your opponent's
Sinking the Titanic
Yes, we know exactly how you did it.

We have not come here to punish you.
We have come to reclaim our father's great legacy.

Soon, the Federal Reserve Act will be signed.
There is nothing we can do about it for now.
When the time comes, we will reverse the ignoble privilege of your Federal Reserve
and free humanity from its monstrous and hellish machinations.
In the meantime,
you, dear Uncle Pier,
You will immediately sign, here, in front of your associates, this magnificent agreement.
You will immediately place upon this table one billion dollars in gold,
and the others will sign as witnesses.
One billion dollars to start
for the World Organization of Teslatic Sciences
the World Organization of Teslatic Sciences
One billion dollars so that you don't go to hell
The whole world will turn towards love and nature

Teslatic intelligence will triumph
Teslatic intelligence will triumph

The beautiful and sensual barbaric blonde
Roared fiercely, imposing her will

On the psyche of the elegant founders
Of the Federal Reserve, while
The beautiful Brunette
Danced around the room
Spreading lunar waves
with and engineering that her father had given her

The waves began.
The waves began to permeate
the moody guests.
They took off their shoes.
They loosened their shirts and belts.

The waves began.
The waves began to permeate
the moody guests.
They took off their shoes.
They loosened their shirts and belts.

All that money will serve to
enable the world's greatest scientists
to complete our father's work,
the great gift that our father
has revealed for the benefit and glory
of a new humanity.

You are ignorant
and stupidly ambitious.
You have scorned the goodness of nature
and the divinity of science that dwells
in every molecule of the universe.
Your unconscious actions are leading us to extinction

We will not allow it.
We will not allow it.
You have been rude and inconsiderate.
You have truly acted like mentally challenged individuals.
You are very mean-spirited, not caring at all about
what nature and its animals feel.
This proves that you are more inconsiderate
than the animals themselves.
You are more inconsiderate
than the animals themselves.

The psyche came from beyond
flooding the room with great mystery

disheveled, shirtless, and shoeless Uncle Pier
shouted euphorically,

"Let's sign, let's sign, let's sign now
the document the twins are asking us for.
they are sublime beauties,
they are sublime beauties,

Don't be fools
and learn your lesson.
The twins have discovered us
And they are giving us a new opportunity
No one here wants to go to hell
No one here wants to go to hell

Long live the Tesla twins
Long live the Tesla twins

The twins have discovered us
And they are giving us a new opportunity
No one here wants to go to hell
No one here wants to go to hell

Long live the Tesla twins
Long live the Tesla twins

Barefoot, no tie
Bring wine and get in line
Let's sign, put a billion per head
And enjoy this moment
Bring wine and get in line
Let's sign, put a billion per head

Long live the Tesla twins
Long live the Tesla twins

4.-Twins visit Uncle Siggy

*On how the Tesla twins
obtained psychotherapeutic medicine
to transform the minds
of dangerous people*

Now the Twins had obtained
the funds to establish
The World Organization of Teslatic Sciences,
but money is never enough
especially when it comes to saving the planet.
The great Nikola Tesla knew this
with absolute precision.
The mental balance of humanity
would require science and patience
in order to offer an opportunity
to humans who found themselves
in a decadent existential situation
with great losses of moral values
coupled with an unstoppable explosion
of ego and childhood traumas.
So now the twins would have to obtain
state-of-the-art psychotherapeutic medicine
to treat and correct powerful individuals
with severely altered psyches.

(Greek Chorus)

“Come live in the jungle
feel what it's like to be alive”

In early 1939,
the great Nikola Tesla sent a famous letter to his two beloved twin daughters,
who were leaving in Switzerland,
in the letter he revealed his plans to return to the stars.
The equivalent of what the world's religions mysteriously recognize as death.
Nikola had warned them that when that happened,
they would have to meet with very dangerous people,
specifically, CIA agents,
since the CIA would confiscate his files,
depriving the world of the benefits of the comprehensive Tesla energy system.
The twins will fight to recover the files.
The twins will be the last hope
when the world is on the brink of the abyss and total destruction.
Tesla intelligence will triumph.
Tesla intelligence will triumph.
The twins will fight to recover the files.
The twins will be the last hope.
Using a billion-dollar fund,
they will enter the list of public companies on Wall Street,
The Teslatic Science Organization.
Tesla intelligence will triumph,
In the letter, Nikola told them:
When you manage to return to America,
go directly to the New Yorker Hotel.
I will leave a pair of wave-generating pistols with the concierge.
These weapons may help you if any situation gets out of control with the CIA agents.
In the meantime, meet with Uncle Sigy and ask him for some kind of medicinal substance
That can get you out of trouble in case any CIA agent Tries to get smart

Some substance that allows you to dominate the situation
and come out on top Without having to kill your opponent.
Some substance that allows you to dominate the situation
and come out on top Without having to kill your opponent.

The twins immediately began to dance and sing
aboard a beautiful carriage bound for Café Riche,
the restaurant where the world's most famous writers, philosophers, and artists gathered.
Café Riche was Uncle Siggy's favorite place.
Upon arriving at Café Richie, an elegant butler greeted them,
and the beautiful Brunette said ceremoniously:
"We are guests of Dr. Sigmund Freud."
At a table full of Austrian delicacies Dr. Freud was waiting for them, filled with anxiety.

Uncle Siggy, Uncle Siggy The twins sang:
May heaven always light your way
You who have given so much to the world
So that there may be less suffering
And people may be freed from their traumas

Uncle Siggy jumped up like lightning
And hugged his beautiful “nieces”
effusively
Tell me how I can help the daughters of the great Nick?

The Barbaric Blonde began by saying
Dad is preparing for his journey of light to the stars
His files will be hijacked by the CIA
And we will have to fight very dangerous people.
Fearing for our physical safety,
Father wants you to provide us with some medicine
that can help us control the CIA agents without having to kill them.

I have what you need,
and right now, we are going to try it out
by taking out and placing on the table a couple of powder guns.
The twins laughed out loud when they saw the tiny guns.
And immediately Uncle Siggy Put the barrel up his nostrils and fired.
Then he did the same with the twins and shouted euphorically.

Let the orchestra play at full speed
and you two Tesla twins,
Get up, you're going to dance with Uncle Siggy
Like you've never danced before.
Everybody singing now:

May heaven always light your way
You who have given so much to the world
So that there may be less suffering
And people may be freed from their traumas
May heaven always light your way
You who have given so much to the world
So that there may be less suffering
And people may be freed from their traumas

The euphoric vibration they generated
Made everyone in the restaurant
Get up and dance

The twins and their uncle climbed
on the table
Until the police arrived
Who, seeing that they were such great celebrities
Ordered everyone to get up and dance
On top of the tables

Bravo, Uncle Siggy, what sensual moves You make when you dance
On top of the table, you feel more Uncle Siggy's medicine
Will relieve even the worst of the CIA

May Heaven always light your way.
You, who have given so much to the world
So that there may be less suffering
and people may be freed Their traumas

Many hours passed like this
Until Uncle Siggy Shouted furiously:
enough, enough, enough already.
Now let's follow the party in my house.
I invite everyone, including the waitresses and the cooks.
Come, come all, for today is a historic day.
Singing in choir:
The twins filled us with their light.
Today is a great day
We are celebrating with the twins
The twins filled us with their light.
Today is a great day
We are celebrating with the twins.

At dawn,
the beautiful twins listened
With great solemnity
to the words full of wisdom and love
of Uncle Siggy

When fate confronts you with your father's enemies
Who wants to hide his legacy,
Don't forget to take your powder guns
Each one has three charges of medicine
With one charge you could dance for 24 hours
But an overdose will give them mind control over any CIA agent

No matter how evil or stupid
Deep down, what everyone wants is love
Some are so blind and afraid that they become tyrants
As is the case with Chancellor Adolf,
who will soon project his pain by spilling the blood of millions of innocent people
If life had given me the opportunity to have him as a patient
I could have made him talk, to remove all the evil that was planted in him
during the first six years of his life

The world does not need more wars
What the world needs is the sound of love
Of love spoken with the exact words to heal the soul of each one of us
Remember that behind every man or woman
who only attacks, lies and wants to impose their whims
There is the story of a child who was traumatized

Now with Tesla wave generators and my magical psych-engineering science
The whole world will heal.

May heaven always light your way
You who have given so much to the world
So that there may be less suffering and people may be free from their traumas
May heaven always light your way
You who have given so much to the world
So that there may be less suffering
and people may be free from their traumas,

Uncle Siggy hugged the twins effusively, giving them each a pair of pistols and disappearing
aboard a carriage pulled by 26 horses.

5.-The Inheritance

“Twins go to Pentagon”

*About how the Tesla twins
recovered the lost heritage*

They already have the funds for the organization
and they also have the psychotherapeutic medicine
to gently induce the mentality
of dangerous individuals.

Now they must recover
the stolen and classified files,
Nikola Tesla's legacy to all humanity.

(choir)

ανακτήσετε την κληρονομιά σας
ή θα τελειώσει ο κόσμος

Reclaim your inheritance
Or the world will end

The Tesla Twins got together in the year 2000
on the 106th floor of the Twin Towers.

A jazz quartet

The New York Marshal

And Kofi Annan, the Secretary-General of the United Nations
were the only witnesses to the historic meeting

Kofi Annan began by saying

The Neocons are about to start a new war against the Middle East
Life will be over for humans, and the era of terror and survival will have begun

the wild brunette quickly got up from the table

and shouted furiously,

"We have to stop them!

Let's ask Baby Father

to help us with some new creation that will make them think."

But Baby Father didn't listen to them.

Baby Father ignored them.

And the war began and terror was unleashed
Humanity fully entered the prophecy of Chief Kofi Annan

25 years later, the war continues
And we are on the brink of extinction

Now baby father has a new creation
And the twins are getting ready to use
Its vibration frequency generator of mesmerizing waves of pleasure

and there they go... on a secret mission
oh yes, there they go...
The Barbaric Blonde, the Beautiful Brunette and the New York Marshal
flying straight towards the Pentagon
They barely managed to land on the edge of the famous Potomac River
when they were surrounded by 850 well-armed soldiers,
250 tanks and 20 giant flamethrowers
While supersonic planes crossed menacingly in the sky
Suddenly the great marshal of New York
came down from the ship in his new outfit with feathers from Cambodia
and two forged bows from Chief Seattle's tribe
and began to dance to a new rhythm that left everyone perplexed
At that moment, the Tesla Twins descended from the ship
And with their beauty and sensuality
Placed on the ground the new device created by Baby Father
A powerful Thunder was heard in the distance
A small tremor Made the Earth creak
immediately the soldiers were hypnotized
the captains and grand admirals in their elegant uniforms
formed a human fence up to the gates of the Pentagon
Inside, the Pentagon chief
Tried to contact the president
To get some instructions but he was playing golf
So, he had no choice but to go out and greet The Tesla twins
When he saw them, he was mesmerized
and led them to the vault where he kept the classified papers
That were stolen from Baby Father in 1943
The Tesla Twins began to dance
and the Barbaric Blonde shouted with joy
This is what we need to prevent human extinction
Free Flowing energy is in the air
Free Flowing energy is in the air

and now we can harvest it
yes, we can
Free flowing energy is in the air
and now we can harvest it
yes, we can

With great joy
Everyone climbed onto the roof of the Pentagon
Where the grand marshal of New York Continued dancing
audience was ecstatic
Wanting to take off all their clothes
a giant cloud appeared Releasing a great shower of refreshing water
the twins board the ship and disappear
As fast as the light that guided them
Free Flowing energy is in the air
and now we can harvest it
yes, we can

6.- The Confession

“Twins on top of the New York Stock Exchange”

*On how the Tesla Twins
sparked the creation
of the World Organization of Teslatic Sciences
and turned the world upside down.*

Finally, the papers have been declassified,
and all that is required.

Is for the Teslatic Sciences organization
to be registered on the New York Stock Exchange.
It will be humanity's first major business venture
since agriculture.
We are humans
electrical beings
The African immigrant
is going to sing
is going to sing

The twins are celebrating.
The president is now rebuilding the Wardencllyffe tower they inherited from their father.
and they have managed to declassify the Tesla files comprehensively
In addition, they have 15 billion paid by Commodore Morgan
and his banking comrades in exchange for not going to hell

Today is the big day
The day inscribed in the destiny of the world,
The birth of the Teslatic Science Organization
The beginning of a new era for all humanity
Today is the big day
Today is the day
Millions of spectators around the world
and crowds in the streets
Await the arrival of the extraordinarily beautiful and sensual Tesla Twins
at the New York Stock Exchange
Today is the day marked by history for registration
of the Teslatic World Science Organization

Today is the day
Today is the day,
The bells will ring, and the world will be turned upside down
Today is the day, let the bells ring, ring
Today is the big day
Today is the day
The twins land on the roof of the New York Stock Exchange
and are immediately surrounded by a hundred men and women
all dressed in black
At the front of the regiment stands the president of the Federal Reserve
and an African immigrant named Elon

Get the guns Uncle Siggy gave us ready,
someone who needs psychological adjustment
wants to hinder our triumph
Get the guns Uncle Siggy gave us ready,
Someone who needs psychological adjustment
wants to hinder our triumph

The president of the Federal Reserve lashes out furiously:

We don't want you here, we really don't need you,
your organization will not be registered here
Mr. Elon owns the Tesla name
We don't want you here; we really don't need you
Take your tower and your energy somewhere else
Mr. Elon owns the Tesla name

The fiery gaze of the incredible Teslatic creatures rested on the African man,
who began to stammer.

The president of the reserve realized that things would not be so easy.

There were many people outside,
and things were getting out of control.

It would be better to try to reach an agreement in private.

With great charisma and kindness,
the president chose to invite the Tesla twins into his private room for a cup of coffee.
The African man tried to regain his composure, but his tongue and jaw betrayed him,
and he continued to stutter,
Albeit slowly
Everything began to relax
with the sensuality and luminescence of the Tesla twins.

As soon as they entered the president's luxurious hole
and having made sure that there were no other people around,
The beautiful Tesla twins launched their attack.
They took out their guns and began to sing.

No one leaves this room.
No one leaves this room alive.
Unless it's with shares and dividends
From the Teslatic Science Organization.
No one leaves this room alive.

Without asking
and at great speed,
The twins fired their guns
at the African's and president 's nose
giving them the first dose of Uncle Siggy's medicine.
The African immigrant stopped stuttering
And jumped up like a spring
began to babble with rapid gestures
new ideas that would allow him to get to mars faster....
The president let out one of his usual screams
And ordered his butler not to be disturbed for any reason
Just bring me delicacies and a champagne case.

Today is a great day
We want to enjoy ourselves
And dance a little with the Tesla twins
Let no one disturb us
We are not here for anyone else
Today is a great day
We want to enjoy ourselves

The beautiful Brunette Throwing her shoes out the window
began with an operatic statement:
Our dear Uncle Commodore Morgan Could not recognize the immense business opportunity
That would have meant taking advantage of the ability to distribute energy around the world
With the Wardencllyffe Tower
Of course, that was a long time ago
But now, if you haven't understood we're going to Make sure you have no more doubts

No one leaves this room
No one leaves this room alive
Unless it's with shares and dividends

From the Teslatic Sciences Organization
No one leaves this room
No one leaves this room alive
Unless it's with shares and dividends
From the Teslatic Sciences Organization
The twins, like wild animals Pounced on their prey
And connected a second dose of Uncle Siggy's medicine
Come on,
come on Don't let the music stop
Let's dance and sing
This party can't end yet
Come on, come on
This party can't end yet

I confess, it's true I confess,
I confess It's true, it's true,
you've found me out,
I'm not Tesla,
I'm not Tesla
you've found me out,
Your father is the greatest scientist who ever lived.
I'm not Tesla, I'm not Tesla
But right now, I'm having a wonderful time
Turn up the music and let's keep drinking and dancing.

7.-The world is upside down.

Out on the streets
Through a system of loudspeakers
Previously set up by the twins
The whole world listens in disbelief to the confession of the African immigrant
It seems as if the world Has had the blinders removed from its eyes
People mobilize in masse
And everyone sings euphorically
The African immigrant named Elon
Has confessed,
He is not Tesla
He is not Tesla
The African immigrant named Elon
Has confessed,
He is not Tesla
He is not Tesla
The president of the reserve has been dancing for 24 hours
He has confirmed his resignation
Announcing that he will devote himself to plant olives in North Africa
followed by millions abandoning their homes
To go live in nature
The President becomes a guru
The world is upside down
The world is upside down
Finally, people can breathe
The world is upside down
The world is upside down
Finally, people can breathe
The stock market falters.
But suddenly rebounds towards infinity.
Billions of humans buy shares from the Teslatic Science Organization
A new era for humanity
Detonates faster than light
From the Wardencllyffe Tower
A wave of love is generated using a macro generator
of luminescent frequencies
The world is upside down
The world is upside down
Finally, people can breathe
The Tesla era has begun
This is the end of war
This is the end of hate and suffering
love is free and energy too
flowing in the air
The Tesla era has begun

8.-Epilogue

Glory and eternal light
To the gardener of light
of planet Earth
The gardener has returned
And wants to harvest light
Starlight
Universal love
Long live the Sun
Eternal Sun
Eternal joy
My eternal star
Growing gardener
Grow, sing
Music with heart
Growing seeds of light
Light on Earth
My light
My star
The moon
The star
The Earth
My moon
My Earth
My Sun

In Esperanto (original lyrics)

gloro kaj eterna lumo
al la gardenisto lumo
de la planedo Tero
la gardenisto revenis
volas rikolti lumo
lumo de stellog universala amo

Viva la Suno
Eterna Suno
Eterna Gojo
Eterna Stelo nia
Gardenisto Kreskanta
Kreski Kanti
Muzico kaj koro
Kreskanta semo de lumo
Lumo sur la Tero
Nia lumo
Nia Stelo

La luno
La Stelo
La Tero
Mia Luno
