WILDFIRE RISK HOME EVALUATION PROGRAM

Defensible Space & Home Hardening

Wildfire Risk Report

Enter your address below and press submit.

Then you will enter your access code to view your defensible space report or learn how to request an evaluation

Address

submit

**Reports may take up to 24 hours from time of evaluation before they are available.*

FREQUENTLY ASKED QUESTIONS

Why are Wildfire Risk Home Evaluations so important?

60-90% of homes are lost from tiny embers that ignite combustible materials around the home or materials used in the construction of the home itself. By educating residents on their defensible space responsibilities and identifying what they can improve this makes them and their neighbors safer.

How is MWPA supporting these evaluations?

Given the importance to residents safety and protection of their property, supporting evaluations is a core objective for MWPA. The MWPA works with the local fire departments to help fund the evaluation teams. The MWPA's role is education and

support. Any enforcement of state or local regulations is the sole jurisdiction of your fire agency.

How do I access my Wildfire Risk Report?

Please enter your address at the top of this page and then enter your secure access code. If you lost your code the site will give you a contact form to request it from your local fire department.

Additional questions or need help?
