

# Me and the Bottle

**Background:** We can become imprisoned by our own vices. But this bluesy song is really meant to just be fun.

**Written:** Sometime in 2023

## Verse

Got a friend comin' out tonight  
The only one that I can depend  
Been there through good times and bad  
Always got a shoulder to lend  
Yeah me and him are best friends  
No one's ever come in between  
Always partners in crime  
Always the two of us fleeing the scene

## Chorus

Me and the bottle  
Throwing time away  
Going full throttle  
Going all the way  
I ain't no role model  
Sure ain't no supermodel they say  
Me and the bottle  
He ain't never gonna betray

### **Verse**

Ain't no closing time here  
No the sun here don't set  
This joint stays open all night  
You can stay long as you get wet  
You never owe him nothing  
Never a debt to repay  
I don't know how we got here  
But I do know we're here to stay

### **Chorus**

Me and the bottle  
Swimming fast away  
Sinkin' to rock bottom  
Where all the shipwrecks lay  
I don't know why they bother  
To try to save this lost castaway  
'Cuz me and the bottle  
We'll just drown another day

### **Verse**

Come tomorrow mornin'  
My eyes be too blind to see  
My head pounds like a hammer  
My liver won't speak to me  
Ain't got no memories  
Got no good stories to tell  
Just another night in heaven  
And another morning spent in hell

## **Chorus**

Me and the bottle  
More hair of the dog today  
We ain't here to mollycoddle  
This big dog's gone astray  
Stop walking with a waddle  
Get your big ass out of my way  
'Cuz me and the bottle  
We're going back at it today  
Yeah me and the bottle  
Are going full throttle today
