

# Contagious

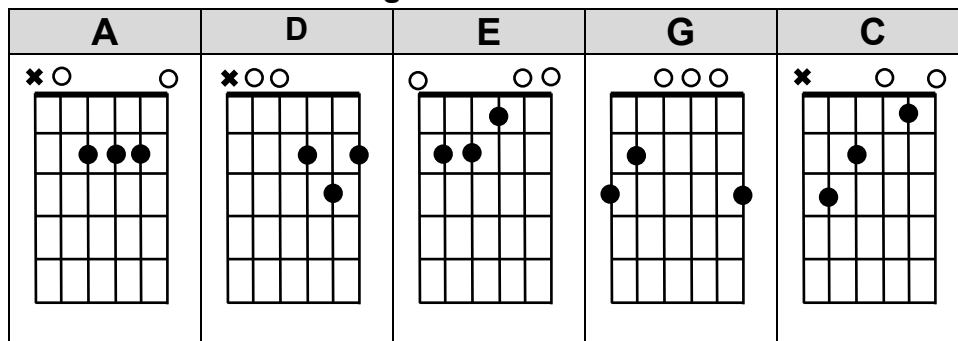

**Background:** A song that seems to sound best as a funky blues number in E like Superstition. It could actually be rap or metal rap like RATM or Linkin Park. Auto-wah pedal might be good. Stripped down to just an acoustic guitar, how I wrote it, is a bit tough. But here it is anyway.

**Written:** 2024

## Chords Used in this Song

# Contagious

## Odd Verse 1 (A A D A)

Went out last night  
Feeling strong  
Thought I was healthy  
Got nothing wrong  
Bumped into her  
Broke out in a sweat  
Pulse starts racing  
Shirt soakin' wet

## Even Verse 2 (A A D E)

She touched my arm  
I broke out in hives  
My lips swelled up  
Didn't think I'd survive  
Came home an addict  
Infected by her charm  
Sick with her disease  
Inflicting its harm

## Chorus 1 (D D A A D D E E)

She's contagious  
Temperature climbin' high  
Contagious  
Shivers rockin' my spine  
Contagious  
Pulse racing speed boat fast  
Contagious  
And she's got her foot on the gas

## Odd Verse 3 (A A D A)

She's my addiction  
I'm all strung out  
An affliction  
I've got a raging bout  
My bad habit  
A blonde overdose  
Gotta grab it  
Numb down to my toes

**Even Verse 4 (A A D E)**

Swimming in her infection  
Drowning in her strain  
Adrift in her affection  
Imprisoned with the insane  
She spreads like radiation  
Got me on the run  
Feeling her fatal poison  
You better call nine one one

**Chorus 2 (D D A A D D E E)**

She's contagious  
My pandemic  
Contagious  
I'm hallucinogenic  
Contagious  
She's pathogenic  
Contagious  
I'm feelin' schizophrenic

**Bridge (G D C G D C G D)**

I'm drawn to her  
Got no resistance  
Ain't no way  
I can socially distance  
I wanna walk away  
But for her persistence  
I can never let her go  
No no noooooo

**Break / Solo****Odd Verse 5 (A A D A)**

Turn on the TV  
No talk 'bout an outbreak  
Seems I'm the only one  
Sufferin' terminal heartbreak  
Temperature's rising  
Lighting up the thermometer

Pressure's driving  
'Bout to break the barometer

**Even Verse 6 (A A D E)**

I'm lost in her iris  
She's tranced me hypnotic  
Adrift in her virus  
I need some antibiotics  
Give me the antidote  
I need a vaccine  
Can't breathe around her  
I need a lung machine

**Chorus 3 (D D A A D D E E)**

She's contagious  
I'm seeing spots  
Contagious  
She's got a high R-not  
Contagious  
I can hear my heart rot  
Contagious  
Help me I need a shot

**Odd Verse 7 (A A D A)**

I got the diagnosis  
Burned beyond recognition  
A negative prognosis  
A terminal condition  
Give me a vaccination  
I need an overdose  
I want inoculation  
I can't feel my toes

**Even Verse 8 (A A D E)**

Head spinning slow motion  
I feel mass confusion  
Give me that magic potion  
I need a transfusion  
Give me the paddles  
Check my EKG

I feel my heart rattle  
I need a CBC

**Back to Chorus 1 or Mix it Up**

She's contagious  
Temperature climbin' high  
Contagious  
Shivers rockin' my spine  
Contagious  
Pulse racing speed boat fast  
Contagious  
And she's got her foot on the gas
