

In Between Sundays

Background: A song about real life and how it may conflict with what organized religion attempts to teach, and the hypocrisy we often see in what people take away from their religion and their actions outside of it. This song has a John Cougar Mellencamp feel to it, unintentionally.

Optional Epilogue Verse

Two strange cars parked
At the end of the street
Two strangers look cautious
A pre-arranged meet

Each one has a motive
A reason to be discreet
They make their deal
Get behind their wheels
And disappear in retreat

Pre-chorus

The deal done
They go their separate ways
They make a good living
Who said crime doesn't pay

And feed their families
In unconventional ways
This is what goes on here
In between Sundays

Chorus

In between Sundays
We all got dragons to slay
In between Sundays
Predators stalk their prey
In between Sundays
Villains make their getaway
This is what goes on here
In between Sundays

Yeah this is what goes on here
In between Sundays
