

White Noise

Background: It gets tiring watching people play the victim card, especially those that have absolutely no reason to and do not see the advantages they have.

White Noise

Verse

You claim you got it rough
That someone took your job
Been treated unfair and rough
Somehow you've been robbed
You love that victim card
Blind to your advantage
Like every day is so hard
You're a living double standard

Chorus

White noise
It's all just white noise
Yeah white noise
So sick of this white noise
You act like children
You act like little boys
Pretend you're a victim
But it's all just white noise

Verse

Everyday in the news
One side slings the blame
The other side fakes empathy
Fake guilt to clear their name
But your privilege glows
And your fragility shows
This is all old news
You've never walked in their shoes

Chorus

White noise
It's all just white noise
Yeah white noise
So sick of this white noise
You act like children
You act like little boys
Pretend you're a victim
But it's all just white noise

Solo

Chorus

White noise

It's all just white noise

Yeah white noise

So sick of this white noise

You act like children

You act like little boys

Pretend you're a victim

But it's all just white noise
