

# Bouncing off the Walls

(Regular Version)

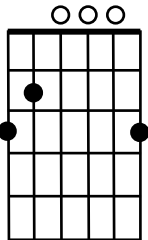

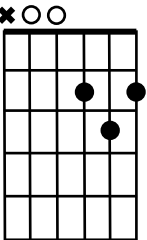

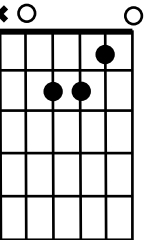

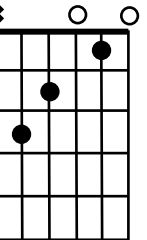

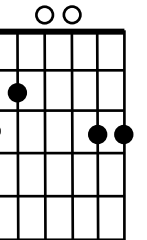

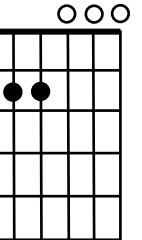

**Background:** Started as a children's song, which is another version now. This is almost as silly but not quite.

**Written:** 2023

# Bouncing off the Walls

(Regular Version)

## Verse

My head just exploded  
Like an ancient supernova  
I can't remember what I told ya  
But I know it wasn't right  
My heart's flipping over  
Like an apple turnover  
I'm too drunk to act sober  
Let's hang upside down tonight

## Pre-chorus

You can hear me  
All the way down the hall  
You can feel me  
Bouncing off the walls

## Chorus

Bouncing  
Bouncing off the walls  
Bouncing  
Bouncing off the walls  
Blowing in the wind  
Floating in free fall  
You've got me bouncing  
Bouncing off the walls

## Verse

Spinning like a cyclone  
Twisting through the ozone  
Frozen like a snow cone  
Raging like a squall  
Shaking like an earthquake  
I see you and the ground shakes  
Spinning till my head aches  
Afraid my engine's gonna stall

**Pre-chorus**

You can hear me  
All the way down the hall  
You can feel me  
Bouncing off the walls

**Chorus**

Bouncing  
Bouncing off the walls  
Bouncing  
Bouncing off the walls  
Blowing in the wind  
Floating in free fall  
You've got me bouncing  
Bouncing off the walls

**Bridge**

Skidding on a wet road  
Spinning like a yoyo  
Car's about to explode  
Brakes about to lock  
Fallin' through thin air  
Wind rushes thru my hair  
Lean back too far in my chair  
Wake up with a shock

**Verse**

Feeling terminal velocity  
You pique my curiosity  
This traffic's an atrocity  
I need a faster way down  
I don't need this animosity  
I need some reciprocity  
Give me your feminine ferocity  
I need your ultrasound

**Pre-chorus**

You can hear me  
All the way down the hall  
You can feel me

Bouncing off the walls

**Chorus**

Bouncing  
Bouncing off the walls  
Bouncing  
Bouncing off the walls  
Blowing in the wind  
Floating in free fall  
You've got me bouncing  
Bouncing off the walls

**Outro**

Bouncing  
Bouncing off the walls

**Repeat and fade**
