

Ignite

Background: A Bryan Adams-like rock song that I picture would be a good opening song to a show. It can be done acoustic but is meant to be with a full band, rocking hard.

Written: Summer 2024. Completed in Cyprus.

Ignite

Verse

Drown me in gasoline
And hit me with your spark
I'm feeling lean and mean
But I'm afraid of the dark
Connect me to your terminals
I want you to cross the wires
Hit me with your amps
Strike the match
Give us some light
Set us ablaze
Come on now, let's

Chorus

Ignite
Yeah let's ignite
Come on now let's ignite
Yeah let's ignite

Verse

I'm frozen solid
Stone cold to the core
I'm all alone on the high seas
Soaked in a heavy downpour
Hit me with them paddles
Gimme your positive energy
Burn the torch from both ends
Light the fire
Give us some light
Set us ablaze
Come on now, let's

Chorus

Ignite
Yeah let's ignite
Come on now let's ignite
Yeah let's ignite

Bridge

I'm feeling electric shocks
Coursing through to me to ground
Don't give me the third degree
Let's burn this whole place
Burn this whole place down

Guitar Solo**Repeat Bridge****Chorus**

Come on let's Ignite
Yeah let's ignite
Come on now let's ignite
Yeah let's ignite
I just want to ignite
Yeah ignite
One more time
Ignite
Yeah let's ignite
