Mr. Alcorn did. Can you guess which one is his?

"It was a '72 Buick LeSabre. It was rusty, but the metal was so thick it didn't matter that much. I bought it when I went to college for \$350 and I kept it for five years. It could seat 6-7 people comfortably and I could put my bike in the trunk without taking it apart". Quoted Mr. Alcorn.

Who Is Retiring?

The Loveable Industrial Technology, Mr. Dorton!

Mr. Dorton, a favorite teacher to many students, will be missed greatly. His dry sense of humor is really what he is known for. The sarcastic remarks always puts a smile on somebody's face. He is the type of teacher that when somebody messes up, he will tell you exactly how he thinks. If you are willing to mess with Mr. Dorton, you had better be ready for the consequences. But most of all, Mr. Dorton is going to be missed because of his "Dry" sense of humor because there is nobody else like him and his humor. For Mr. Dorton and all of his students, "I'm not your mama!"

Physical Education with Miss Arnett!

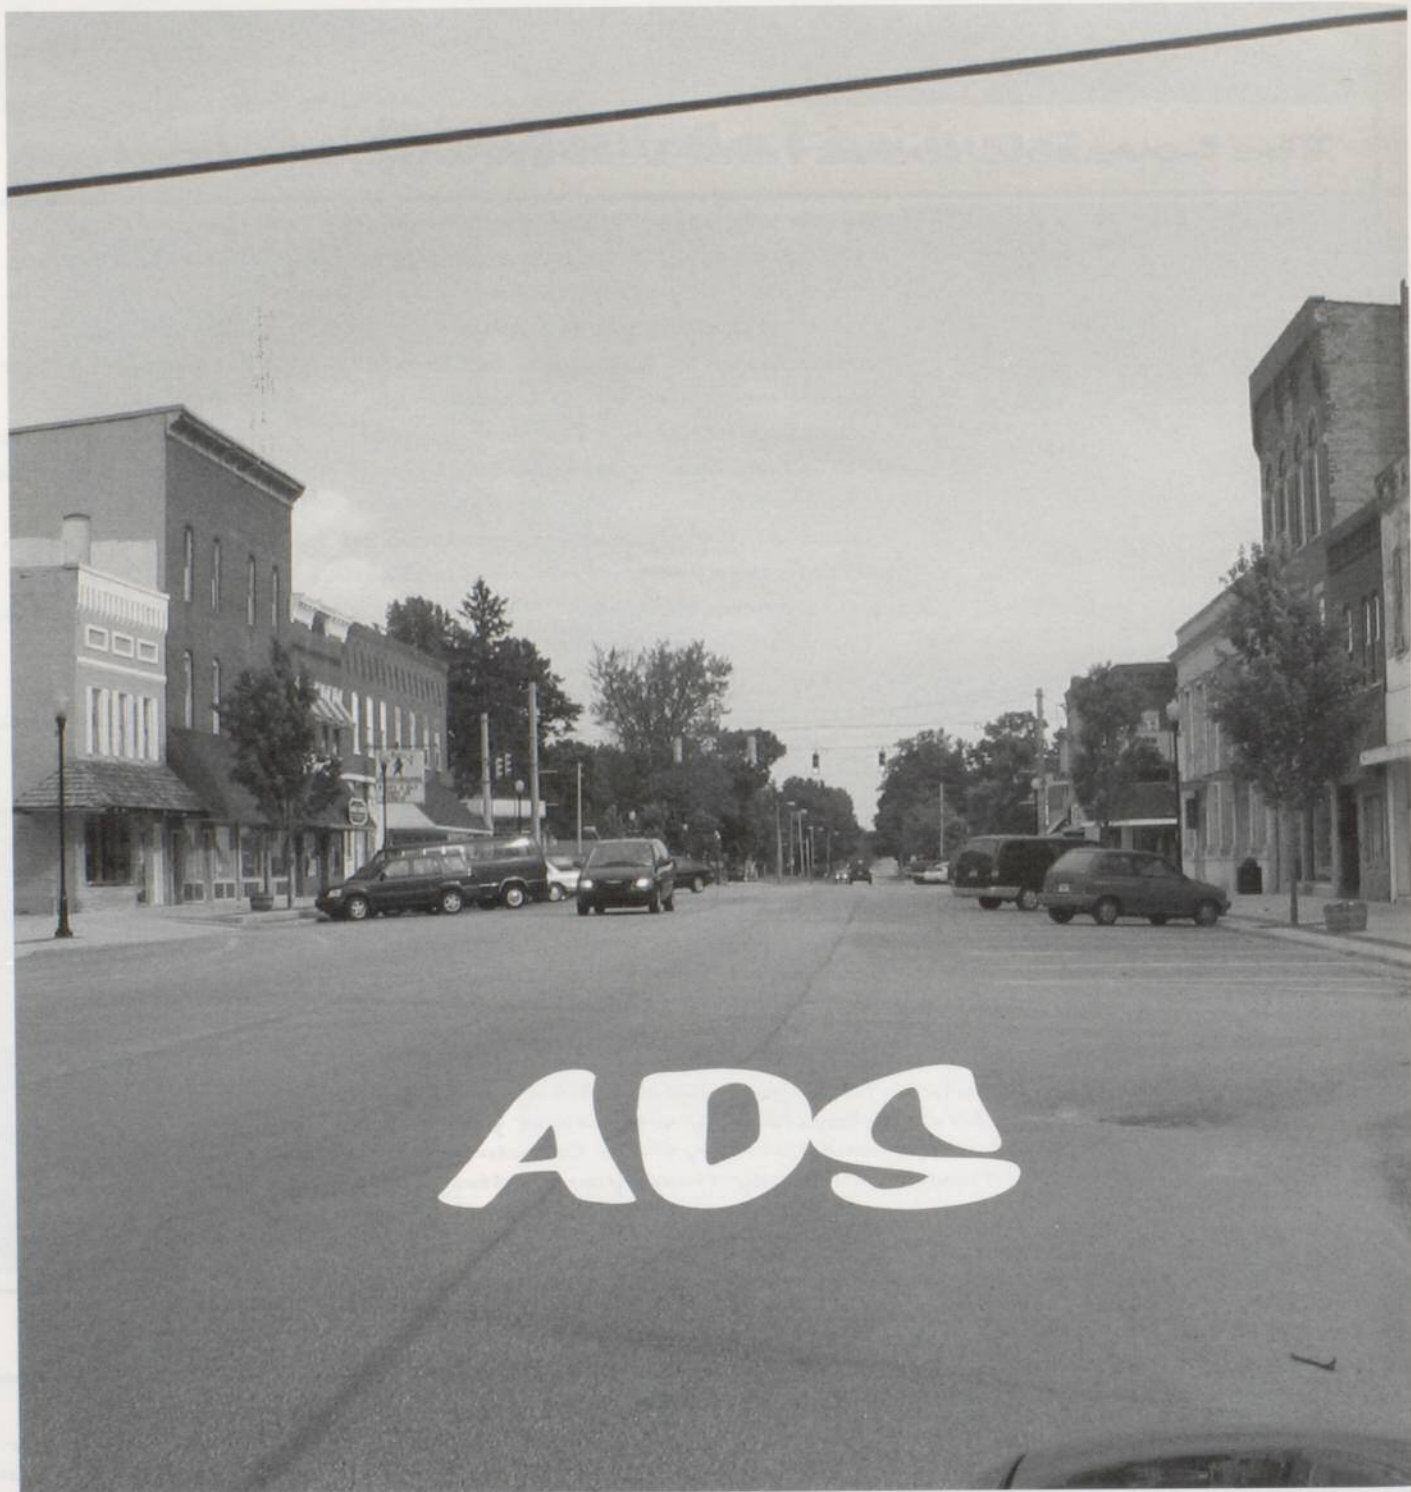

Not very many people would know this, but the drinks in the pop machine and the food in the teachers lounge was always set up by Miss Arnett. She is known for being very timely and very helpful for anything. If you needed help she is always reliable for help. She has been always very faithful to everyone. Not very many students may know this but she has been a High School PE Teacher, and for most of the students can remember is her being the Elementary PE Teacher. Miss Arnett has spent 37 successful and fun years here at Argos. "Behind the scene helper!" Quoted from Mr. Lichtey. Nobody will forget you Miss Arnett and your helping hand to everything. On behalf of the students and teachers we say thank you for the wonderful years.

The Business Teacher Mrs. Weaver!

Mrs. Weaver is known for her conscientious of details. She has been here for 35 years. Mr. Levi and Mrs. Weaver did the year book for 13 years, but Mrs. Weaver has been working on the yearbook for most of the 35 years she taught here. She has always been helpful to the kids, but she has also been helpful to the teachers. As you can see she is a very hard worker and dedicated to what she does. It's amazing how she is able to keep up with fast growing technology... she started out with just a type writer and now she is teaching voice activated computers. In addition she has went to extra schooling to keep up with the technology. "She is a very hard worker and my friend." Quoted by Mr. Levi. We will miss your sense of humor and your teaching ability.

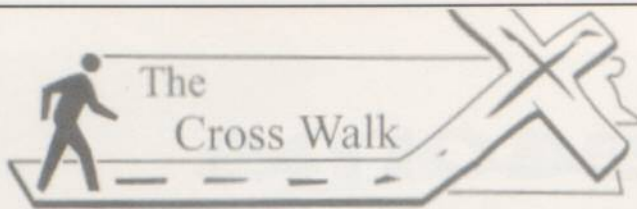

Thanks for all of your support!
