Scott County Chess Club sponsored tournament

6th annual Roosevelt Chess Classic

MORTON – The 6th annual **Roosevelt Chess Classic tournament** is set for **Saturday, November 7, 2026,** at Roosevelt State Park in Morton. This event will feature individuals and teams playing rated games.

Our first Roosevelt Classic in November 2021 attracted nearly 50 players from around Mississippi and we had players come from Louisiana, Tennessee, and Florida. In 2022, the tournament included 69 players from Mississippi and Louisiana. We had 59 players in 2023; set a new record in 2024 with 75 players and 50 players last year. Our combined turnout for all tournaments is now 540 players, including those returning and new players.

Registration is open! The listing is on King Registration with initial information which may have some changes. All details are now final.

Before we go any further, recognition goes to our past sponsors who generously donated funds to help make our tournaments successful. Most of, if not all, of them have expressed an interest to continue this year and we may even have some new sponsors added. This is a tremendous benefit because their contributions help keep the registration fees and expenses as low as possible which means funds left over after all bills are paid can be carried over to the next event. We really appreciate the support from the community and the businesses who have helped make these tournaments possible.

Roosevelt State Park, Group Camp Meeting Room, 2149 MS Highway 13, Morton

Exit 77 on Interstate 20

4 rounds – Swiss System – Game control: 45+3

active *U.S. Chess Federation membership and notation* ***required; All games are rated***

Important Tournament Notes

Due to renovations to the Lodge, our tournament will move to the Group Camp Meeting Room on the other side of the lake. Signs will point the way.

- Registered players will receive a pre-event email on Wednesday prior to tournament including important last minute details.
- Everyone is encouraged to bring chairs for lounging between rounds, there is no lobby; an outdoor patio is available.
- Concession food options will be available on site. Cash and electronic payments (CashApp) accepted
- Please submit any requests for change of section by 6 p.m. Friday, Nov. 6.

More information is available on our website scottcountychessclub.org

Send questions or requests via email to **scottcountychessclub@gmail.com**

Benefits of playing Chess

- **Improves concentration and memory.** According to studies done at the University of Memphis, playing chess significantly improves children's visual memory, attention span, and spatial-reasoning ability.
- **Enhances reading and math skills.** With its focus on problem solving and move variables, chess can improve math skills. Studies show that chess improves reading skills as well.
- **Fosters logic, critical thinking, and creativity.** Chess favors the "if–then" thinker. "If I move here, then my opponent may move here, here, or even here." That's logic and critical thinking in action! Studies also show that chess boosts creativity, most dramatically in one specific area—originality. Playing chess helps unleash your originality, since it activates the right side of the brain, the side responsible for creativity.
- **Encourages and rewards hard work.** Chess offers immediate feedback. Lose your focus, lose a piece. Practice and study the strategies, win more games. In chess, you control your destiny.
- **Promotes brain growth.** Games like chess that challenge the brain actually stimulate the growth of bodies that send out signals from the brain's neuron cells. Communication within the brain improves and becomes faster.
- **It exercises both sides of the brain.** A study indicated that when chess players were asked to identify chess positions and geometric shapes, both the left and right hemispheres of the brain became highly active.
- **Raises your IQ.** At least one scientific study has shown that playing the game can actually raise a person's IQ.
- **Helps prevent Alzheimer's.** A study found that people over 75 who engage in brain-games like chess are less likely to develop dementia than their non-board-game-playing peers.
- **Increases problem-solving skills.** Chess requires fast thinking and problem-solving on the fly because your opponent is constantly changing the parameters.
- **Teaches planning and foresight.** One of the last parts of the brain to develop during adolescence is the area responsible for judgment, planning and self-control. Chess helps this area's development and helps teenagers make better decisions in all areas of life.
- **Optimizes memory improvement.** Playing chess improves your memory, mainly because of the complex rules you have to remember, as well as the memory recall needed when trying to avoid previous mistakes or remembering a certain opponent's playing style. Many chess players have exceptional memory performance and recall.
- **Improves recovery from stroke or disability.** Chess develops fine motor skills in individuals who have disability or have suffered a stroke or other physically debilitating accident. This form of rehabilitation requires the motion of chess pieces in different directions (forward, backward, diagonally forward motion, diagonally backward motion), which can help develop and fine tune a patient's motor skills, while the mental effort required to play the game can improve cognitive and communication skills. Playing can also stimulate deep concentration and calm, helping to center and relax patients who are experiencing different degrees of anxiety.

Most of all - Chess is FUN!

'Life is full of important choices.'

'In chess, there are no losers.

Either you win or you learn ...

sometimes both.'
