

MincoOnline IT Services

Consulting for a Modern World

Sacramento, California | www.mincoonline.com | LConteh@mincoonline.com | (301) 343-1387

Company Overview

MincoOnline IT Services provides secure, reliable, and innovative technology solutions for local government agencies, public utilities, and businesses. Our mission is simple: *Empowering communities through secure, connected, and modern IT infrastructure*. With deep experience in cybersecurity, networking, and cloud services, we help organizations modernize operations while maintaining compliance and resilience.

Core Competencies

- Network & Infrastructure Design: LAN/WAN architecture, Palo Alto firewall deployment, and performance optimization.
- Cybersecurity & Compliance: ISO 27001 and SOC 2 frameworks, risk assessment, and policy development.
- Cloud Solutions: Azure, AWS, and Google Cloud migration and management.
- Virtualization: VMware and Hyper-V deployment for efficient resource utilization.
- Managed IT Services: 24/7 monitoring, patch management, and end-user support.
- Website Design & Hosting: Responsive sites with accessibility and security best practices.
- Data Backup & Disaster Recovery: Planning, implementation, and testing of resilient systems.

Differentiators

- Proven experience with ISO 27001 and SOC 2 controls.
- Expertise in Palo Alto firewalls and enterprise-grade network security.
- California-based and responsive to local agency needs.
- Scalable support from small municipalities to multi-site departments.
- Veteran-led, integrity-driven service model focused on long-term reliability.

Past Performance / Relevant Experience

- Network security consulting and SOC 2 readiness for SaaS provider.
- Cloud migration and IT infrastructure support for mid-size enterprise clients.
- Firewall deployment and monitoring for distributed environments.

(Note: This section can be updated with local government projects as you build your portfolio.)

Certifications

- CompTIA (Security+, Network+)
- ISO 27001 and SOC 2 implementation experience

- VMware Certified Professional
- Microsoft Certified Systems Engineer (MCSE)
- Cisco Certified Network Associate (CCNA)
