## Iowa Youth Code of Ethics

Youth are expected to be sincere, honest and act in sportsmanlike ways at all times. Youth represent the entire program and their behavior reflects on their parents, leaders, club and the entire youth program. All adults involved with the youth program, leaders as well as parents, are expected to set positive examples and serve as positive role models by what they say and do. Any youth who breaks the code of ethics or allows another person (adult or peer) to talk them into violating the code of ethics agrees to forfeit all prizes, awards and premiums. The youth may also be prohibited from exhibiting at this and future exhibitions including the Iowa State Fair and other county, state or regional exhibitions.

3. I will treat all people and animals with respect. I will provide appropriate care for animals.
4. I will present exhibits that are safe for consumption. All food exhibits will be safe to exhibit and for judges to evaluate. Other exhibits will be safe for judges to evaluate and for exhibition.

Any animal that is found to have changed its appearance or its performance shall be disqualified from the show, and have penalties assessed against the exhibitor, parent and/or guardian by the management of the fair or exhibition.

If the laboratory report on the analysis of any sample indicates a presence of forbidden drugs, this shall be evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the exhibitor, parent and/or guardian to prove otherwise.
11. I am responsible for my exhibit and I will not allow others to violate this code on my behalf. By my entering an exhibit in this fair or exhibition I will accept any disciplinary action taken by the management of this fair or exhibition for any violation of this code of ethics and any other rules of competition of the fair or exhibition without recourse against the fair or exhibition.

Grooming assistance - It is the intent that the 4-H or FFA youth take responsibility for caring for and grooming his/her own animals. No other persons including volunteers or professionals will be allowed to assist with grooming/fitting. Violations will result in disqualification from the show. Violations of any of the above will result in disqualification from the show and forfeiture of ribbons, trophies and premiums.

**Protest and Appeals procedures will be followed as printed in General 4- H & FFA Rules in the Monona County Fair Book.**

## 4-H/FFA Herdsmanship

Herdsmanship is important – It reflects the way the participants view their exhibits. It also reflects the way the public perceives the 4-H/FFA program, the club, and the individual exhibitor. Good herdsmanhip is a way exhibitors can communicate to the public the 4-H'ers/FFAer's pride and the value they place on cleanliness and neatness. This encourages visitors to walk among, view, appreciate and learn from their exhibits. Good herdsmanhip contributes to making the Monona County Fair a quality fair. Livestock exhibitors are responsible for keeping their areas (includes stalls, tack area, walkways, tools, etc.) orderly, neat and as attractive as possible. Used bedding is to be placed in spreaders that are provided. Bedding is provided for sheep, beef, old show barn, rabbit, and poultry buildings. Wood chips for swine can be purchased from the Fair Board. Walk-ways are to be kept clean, manicured, and the dirt controlled. Do not tie animals to fences.

Herdsmanship is the sole responsibility of the exhibitor. Judging will be twice daily – morning and evening for beef, sheep, swine, rabbits, poultry, bucket calf, and goats. Each area will be judged twice daily throughout the fair. Each club will be scored daily by each separate animal exhibit area. Judging times will vary according to the availability of the herdsmanhip judges. Exhibitors need not be present during judging but will be expected to have left the area in an orderly fashion.

***Exhibitor's premiums will be withheld if livestock areas are not clean during the fair and after check-out time.***

***\*\*Exhibitors with neglected animals will be subject to executive committee consequences.\*\****

## Copyright Guidelines

**Copyrighted materials and designs may not be used in an exhibit that is presented as original work by the exhibitor.** Exhibitors must include permission from the copyright holder/owner when using copyrighted materials. Exhibitors must give proper credit to the original source of all materials/designs approved to be used in exhibits. (See also special rules for copyright information for 4-H'ers under Visual Arts.)

Please follow the following copyright guidelines:

- a. Can this design, symbol, image, etc., be found anywhere else (i.e. magazine, art gallery, packaging, etc.)? If yes, go to question B and C. If no, this is not a copyright issue.
- b. Has permission to use the design, symbol, image, etc., been granted in writing as evidenced in the exhibit? If yes, it is not a copyright violation. If no, it is a copyright violation to put the exhibit on public display.
- c. Has the design, symbol, image, etc., been altered in at least three significant ways? If yes, it is not a copyright violation. If no, and permission has not been granted, it is a copyright violation to put the exhibit on display.

**Instruction on obtaining permission to use copyright materials.**

Often, we get "ideas" by observation of other's works of art, crafts, recipes, etc. Giving credit to those individuals or companies who have created materials, resources, logos, trademarks, photographs, etc. that you may want to incorporate into a 4-H exhibit for a county fair is very important. In many cases requesting permission can do this.

A sample letter can be found on the following website, which you should modify to meet your particular need:

<http://www.extension.iastate.edu/4H/StateFair>.

This permission is needed when an item made by you is going to go on public display. Getting permission to use someone's work often takes a long time. Act today.

Remember they do not have to grant you permission, but if you explain fully how you plan to use their work, they are more likely to grant permission.

Giving credit to someone else is very important in any area of your work. In written papers, it may be through the use of footnotes; with exhibit items credit and permission are included in the accompanying folders. As you put your ideas together, be sure to keep a list of where you find them. If it is a book, magazine, or other printed materials, include the name of the publication, the issue, volume, year, and page number from which it was taken. This type of documentation supports your efforts to give credit to the original individual or source.

**Remember, when in doubt, ask permission!**

## Design Elements & Principles

When application of design elements and art principles must be explained (including, but not limited to exhibits in Home Improvement, Visual Arts, and Clothing), the following guidelines shall be used:

- a. **Members in grades 4-6 are responsible only for application of the design element line or color**
- b. **Members in grades 7-8 are responsible for application of two design elements**
- c. **Member in grades 9-12 are responsible for application of at least one design element and at least one art principle**

### DESIGN ELEMENTS

Design is an overall plan or scheme.

**LINE** can be horizontal, vertical, dotted, zigzag, straight, diagonal, or curved. Lines can vary in thickness (bold or fine). Lines can show direction, lead the eye, outline one object, divide a space, communicate, or help create a mood.

**SHAPES (AND FORM)** are made from connected lines. They are created when a line comes around and meets itself. How they are arranged determines the design. Shapes are geometric (round, square, rectangular) or free irregular shapes. Forms are three-dimensional or can be seen from all sides.

**VALUES/COLOR** Light, intermediate and dark values define parts of objects and set off one area of a design from another. Colors have hues, intensities and values. They affect each other. They affect how you think, feel, and act. Hues refer to the name of the color. Value tells the lightness or darkness of a hue. Intensity refers to the brightness or dullness of a hue.

**TEXTURE** is a surface characteristic that can be touched or seen, the feel or look of every surface. Contrasting textures add interest. Textures create a mood.

**SPACE** is the amount of room you have. Space is divided into negative and positive areas. Positive space is made up of the shapes and forms that make up design. Negative space is the background. One area should be dominant.

### ART PRINCIPLES

**RHYTHM** is organized movement. Repeating lines shapes or colors will produce rhythm. It allows the eyes to move from one part of a design to another. It can be achieved through repetition, gradation and alteration.

**PROPORTION** compares the amount, size or number. An unequal proportion in which one element dominates is desirable. Proportions refer to the relationship of parts within an item.

**EMPHASIS** captures your attention by unusual use of line, shape, texture, space or value. Emphasis is making a center of interest in your design. It is the part of the design which captures your eye first.

**BALANCE** gives design stability, radial balance – same on both sides. Balance is the placement of visual weights. It creates a feeling of steadiness and of things looking as if they belong where they are. Balance can be formal or informal.

**UNITY (OR HARMONY)** is the union of the elements in design.

Repetition produces unity. It is the feeling that all parts belong together.

**Exhibits which do not comply with size guidelines, copyright, and safety procedures will not be accepted for entry, evaluation or display at the Iowa State Fair.**

## Cornhole Tournament Rules

Boards will be setup directly facing each other with 27 feet between the front edge of each board. Pick which side of the board you'll throw from. In a 4-player game, your partner's pitching box will be directly across from you. Lastly, pick your bags (4 for each team) and get ready to play! **Cost is \$30.00 per Team.**

### GAME PLAY:

Decide who goes first by the flip of a coin, then take turns throwing bags with your opponent. You throw one bag, then your opponent, then you, then your opponent, etc. Your feet may not go past the front edge of the board. If they do, a foul is called and bag gets removed from the board. Also, a tossed bag may not touch the ground. If it hits the ground and bounces up on the board, remove it before any other bags are thrown. If it's hanging off the board and touching the ground, remove that as well. When all 8 bags have been tossed to the other side, add up the score (see scoring below). If you earned the most points in that single round, your team will throw first in the next round.

### SCORING AND WINNING:

After all bags have been thrown, a bag remaining on the board is worth 1 point. A bag that went in the hole is worth 3 points. Add up how many points you earned and compare them to your opponents. Equal points cancel each other out so that only one team can score per round. For example, if you scored 5 points and your opponent scored 3, you will add 2 points to your overall score and your team will throw first in the next round. If you scored 6 points and your opponent scored 6 as well, there will be no points awarded and whoever threw first in the last round will throw first again. A game is won when a team reaches or exceeds 21 points with a lead of 2 or more points.
