# ABOUT

The Market Summit is held each year as part of the Toronto International Nollywood Film Festival (TINFF) in September. In less than 5 years, it has grown to a broader diverse group of creatives attracting thousands of people from the USA, Europe, Africa and other parts of the world.

This Market Summit provides a solid landscape for film production and distribution deals to close.

The goal is to increase film production collaborations and opportunities between Canada, Nollywood and foreign film industries. Thus, giving all sides a significant advantage of being able to network, share resources, cross distribute and promote films related to a part of the audience who come from diverse backgrounds.
