MARKD Productions Named Official Nominee for the 2026 Canadian Choice Award

Third consecutive year recognized for excellence in video production

STOUFFVILLE, ON – MARKD Productions has been officially nominated for the 2026 Canadian Choice Award in the Video Production Services category, marking the company’s third consecutive year of recognition.

The announcement, delivered to the team by the Canadian Choice Award panel, acknowledges MARKD Productions as an Official Nominee and highlights the company’s continued commitment to excellence, community impact, and quality in storytelling. According to the nomination certificate, this recognition stands as “a celebration of your commitment to excellence, community impact, and dedication to your craft.”

The Canadian Choice Award program reviews organizations across the country that demonstrate consistent performance, trusted service, and meaningful contributions to their communities. Over the past two years, MARKD Productions earned the national title in its category, and the team is honoured to again be among the nominees for 2026.

“We are grateful for the trust our clients and community place in us,” said Matt Worthington, Co-Founder of MARKD Productions. “Being recognized again affirms the importance of helping companies and leaders share their stories through thoughtful, cinematic work,” continued Robert Crowley-Smith, Co-Founder.

The Awards panel will now review all nominees to select the Top 3 Finalists in each category before announcing the 2026 winners.

“We remain committed to raising the standard for corporate and creative storytelling,” added Smith. “This nomination reflects the support of the people we serve, and we are hopeful for another strong result this year.”
