HELLO ALL:

THE LEFT WANTS OUR OIL AND GAS SECTOR TO DIE!

We have just received the **attached article** which we ask each of you to read. It is a **letter written to P.M. Trudeau (and supported by 265 academics)** asking the federal government to use the **Covid-19 endemic** to transition to a **green economy** and **NOT provide a bailout to our desperate and struggling oil and gas sector. This is socialism on full display! It is SICK!**

OUR READERS' COMMENTS SECTION

1. From a Reader: Alberta is on the cusp of an economic collapse. Oil is trading as low as \$9 US per barrel, and we think we can make it? Being in the oil and gas business service sector gives me an insider's view on what is happening. My client base has all but dried up and I am facing closing down my business that I have had for 20 years, and 18 years working for an international major before that. The virus scare has placed another layer of collapse on our economy, and the federal government under PM is placing no priority on dealing with just about any of this, other than sending more funding overseas to gain U.N. points for his bid for a seat. In the meantime Saudi oil continues to flow into Canada to the East. Rex Murphy has it right on.

2. From a Reader: I can't wait until Alberta 'breaks' from Canada. Alberta deserves better. I just hope they are able to take the other Western provinces with them. Today's 'Confederation' is ridiculous and non-sustainable. Go Alberta, GO!in the fullest sense. I would also welcome a new Quebec referendum - only this time it would be all the provinces (EXCEPT Quebec) and territories voting to decide whether it was worth it to KEEP Quebec in the Confederation. I believe it is NOT. They are cranking out a surplus, while the rest of us are struggling...mostly as a result of irresponsible Liberal governments – both provincial and federal.

3. From a Reader: Re: Quebec's agreement with Newfoundland on Churchill power. Quebec has been taking Newfoundland to the cleaners on this agreement, any normal province would have renegotiated and given Newfoundland some relief. After living in Quebec for 30 years it was not until crossing the Ontario border when leaving, I finally realized "Quebec has NO Shame." Premier Lougheed came to Quebec in the late sixties to ask if Quebec would buy Oil from Alberta rather than Venezuela. Quebec while

laughing sent Mr. Lougheed packing. If Quebec did buy oil from Alberta the accounting would be fair and honest. No under the table adjustments. Do you really think the accounting from Venezuela and Saudi Arabia is honest. How many Quebec and Ottawa politicians have their hands in the dollar stream of oil importation? I thought the Federal Government would step in and protect the Quebec English against the French. How naïve I was, Ottawa was leading the charge. Moving to Alberta was by far the best decision I have ever made. Honest hard working people that just want a chance. Albertan's do not deserve the treatment they are getting from the rest of the country. Albertan's need to make to stand up for themselves and make a bold move.

4. From a Reader When I was young, before and after WW2, most of our manufactured products were made in Canada or the USA. It wasn't until well after the war, several years, that I started noticing that some items were marked made "Made in China", and we all started buying them, well, because they were cheaper, and who didn't want to save money. So we lost our manufacturing industry. So did the USA. Now everything is imported from China and the orient. Practically no manufacturing is done here. And things made in China aren't cheap anymore. It is true that Detroit-Windsor does some cars but often they are import owned. I think that the Government of Canada needs to say to Canadians: Get to work and start some factories, make stuff. Even if you can't compete, we'll subsidize you. And that shouldn't mean only Quebec and Ontario, but the whole country, including the Prairies. It is time to take Canada back!

5. From a Reader Here we go again. Just heard this spineless leader we have and the Liberal cronies sent 16 million tons of "Personal Protective Equipment" to China when the Corona Virus began. Now Canada is short of the much needed supplies. Why does this Stupid P.M. always support the Chinese and give them all they ask for? Trudeau should be removed from office. He has destroyed this once great Country.

ADDITIONAL READING/ VIEWING

In closing, here is additional information on the problems we are facing and the need for us to take remedial action immediately to right our sinking ship.

ACTION ALBERTA - WHO WE ARE

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to "educate, agitate and irritate" Albertans and Canadians about the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta's energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please **share** this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

Thank you for ALL of your support and interest!
