## TRUDEAU'S LOCKDOWN HYPOCRISY A BETRAYAL OF TRUST!

These have been some **brutal months** for our country. First, the Trudeau **Liberals allowed the coronavirus to spread** through our borders and airports, seeping into the rest of the nation. Then, they **pushed for a lockdown** that they said was necessary to 'save lives.'

We heard it over and over again: **"Stay home, save lives."**

They **threatened** anyone who dared violate it, **casting regular Canadians as selfish** for wanting to go to the park, hang out with a few friends, or try to **keep our businesses open**. The **shame was piled on high**, with the 'experts' saying anyone who didn't listen would be **'killing the elderly' and putting lives at risk**.

Ontario's Premier **Doug Ford** even called those opposed to the lockdowns "a bunch of **yahoos**," apparently not realizing or caring that many of them were his own supporters, and were good people with good points to make. The **restrictions were ironclad**, with people facing massive fines for things like rollerblading or refusing to follow 'social distancing guidelines.'

**The price we paid for this was immense**. Thousands of people **died alone**, without their family or anyone else with them at their final moments. Families were **unable to grieve** properly, as **bans on funerals** and religious services compounded the pain and suffering of losing a loved one.

**Businesses were decimated**, particularly small business who had to wait and wait and wait for support while **big companies and banks got bailed out** almost instantaneously.

But you see, all of this was **"necessary"** we were told. Our leaders were **"guided by the science"**. **But then, the science changed**.

A new report came out in a highly respected medical journal that revealed the **Coronavirus only targets people who are protesting politically incorrect causes**. In a shocking finding, it turns out that those who protest in a way that politicians and the establishment press approve of were in fact **immune to the**

**virus.**

As a result, **social distancing rules** weren't needed for **politically correct protests**, since COVID-19 picked **victims based on politics**, showing a remarkable and previously unseen level of intelligence for a spreading virus.

Of course, that's not at all what happened.

We know that a **virus doesn't care about politics** or any human idea. Yet, the **Trudeau government**, and many of the so-called 'experts' acted exactly as if that was the case. They undertook a **stunning reversal**, switching from denouncing any questioning of lockdowns to **encouraging and even participating in huge rallies** in the downtowns of major cities. **Think about this for a second.**

People were **shamed for trying to reopen small local businesses.**

People were **shamed for going to the park.**

People were **shamed for wanting to see their loved ones in their final moments.**

People were **shamed for wanting to attend religious services.**

People were **shamed for wanting to attend funerals.**

And then, after all of that, people were **literally encouraged** to move from disparate locations around cities, **gather together** in a central area, and then go back out into their communities, something that is **far more dangerous** in terms of spreading a virus than any of those things I mentioned above.

Now, I don't have a problem with the protests. In fact, I think we all agree that **what happened to George Floyd was horrendous**, and people are rightfully outraged and have the total right to express that outrage through peaceful protests.

**The issue is the hypocrisy of politicians like Justin Trudeau and the 'experts.'** They encouraged and participated in something that completely **goes against what they were telling everyone else.**

And **they did so based on politics**. They 'felt' that **this cause was worth ignoring the warnings**. **You can't make decisions based on politics and then claim to follow the science. It's one or the other.**

What they have revealed is that **lockdown enforcement is selective**, and is based on how popular the people protesting happen to be **among the political class and the establishment press**.

'Unpopular' protestors are labelled **'yahoos' and shamed**, while 'popular' protesters are **praised and encouraged**. **It's not about science, it's about politics.**

And this **casts extreme doubt** on everything that has happened previously.

How can we **trust** any decisions that were made?

How can we **trust** any of the advice we were given?

How can we **trust** any official who claims in a few months that there is a **'second wave'** and we all need to stay inside?

The Canadian People made **tremendous personal and financial sacrifices**, listening to leaders who called on us to **sacrifice the economy** and our own connection to our loved ones 'for the greater good.'

That trust was given in **good faith**, that those telling us to make these huge changes were doing so based on a sincere desire to help. **Now, that trust has been lost.**

We've been **betrayed, deceived, and tricked.**

Those in power, particularly those politicians and 'experts' who **so quickly and hypocritically reversed everything they previously said**, have made it **impossible** for people to put faith in the government when they ask for anything big ever again.

**Simply put, the elites cried wolf too many times, and when the next crisis hits, nobody will be willing to listen.**

Instead, we will need to **trust our own wisdom**, trust those close to us, and

ensure that we **look after ourselves and our loved ones**, because **we sure as hell can't trust the government to do that**.

## **OUR READERS' COMMENTS SECTION**

**1. From a Reader:** Stockwell Day was savaged for simply presenting his opinion. It's obvious that any criticism of the left is a "no-no" in this disgraceful land of ours. All of our previous efforts at cleaning up the constitutional mess between Laurentian Canada and the West have failed. No more talk, no more hoping and praying that Kenney and Moe will lead us out of this disaster. We have no other choice but secession. I dare anyone to tell me why I'm wrong?

**2. From a Reader:** There is also JT's foreign policy decision to have Canada as the UN's global leader in promoting solar/wind .....Moore's movie that got pulled from You Tube is an easy to comprehend movie that shows the stupidity of thinking that solar/wind could ever replace oil and gas and coal. Solar/wind only provides kwh for 35% to 40% of the time and each kwh from solar/wind needs load balancing from either fossil fueled or hydro fueled kwh production for those periods of time. Hydro is maxed out so that any new additional kwh from solar/wind needs lithium ion battery bank load balancing at a cost of \$6 US plus per kwh produced from solar/wind. PS reminder that JT's daddy PET co-founded Paris Accord propaganda in 1980's along with Maurice Strong who headed up all of UN's climate change activities up until 2015. Strong made a cool \$1 B per Wikipedia from solar/wind investments while he was pushing same from his UN desk.

**3. From a Reader:** Apparently, Trudeau's recent twenty-one second "pregnant pause" when asked a softball question by the paid media, has gone viral worldwide as an example of deep, introspective intellectual reflection. Personally, I think it was a moment of severe brain-fog (from the previous night's pot-binge) while he "re-ordered" his thoughts. Either that or he realized something didn't feel right and he was trying to remember whether or not he might have put his underwear on backwards!

**4. From a Reader:** "If I was Crime Minister" - That is the BEST thing I've read

in years! PLEASE let me vote for that guy! Sad to say, but it's almost shocking to hear someone express logical, sane ideas in Canada now that we've become so inundated with left wing garbage. You almost forget that there actually ARE other sane people in this country. Thanks for reviving my will to live in this country.

**5. From a Reader:** Our woke PM at work! Monkey see monkey do! Did anyone see a tear or two for effect? What happened to the big Covid Ontario/Quebec lockdown? Or Parliament stopped from sitting for months? No church either, too dangerous! But a politically correct racial protest? Of course! Covid can be forgotten. Never one to miss a virtue signalling photo opp, Trudeau is there genuflecting crocodile tears on behalf of all of the mean white Canadians. Totally fake posturing from the drama teacher. If anyone in Alberta thinks we will get any favours from this guy or the Feds, they are simply delusional. [Click here](#)

**6. From a Reader:** Just read the latest info...it was Well done. Wouldn't it be Great to actually have a Leader who would have That Kind of Day!!! I fully agree with the statement made in the follow up letter, that said the only way we will get any attention in Ottawa is if we have a Separation Referendum in our back pockets. We are being ignored and that will continue with the Trudeau/ Butts/ Freeland trio in charge. Unfortunately Kenny doesn't want to even hear that sort of talk, so I doubt anything meaningful can happen. Very Concerning.

### **ACTION ALBERTA - WHO WE ARE**

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta's energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please **share** this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

**Thank you for ALL of your support and interest!**
