O'TOOLE'S CAPITULATION TO QUEBEC

Erin O'Toole has been **conservative leader** for only a few weeks and not

surprisingly that's exactly how long it took him to **throw Alberta under the proverbial bus**. Shortly after his coronation, O'Toole stated that, "**if elected Prime Minister I would ensure pipeline projects in the West continue to grow and spark the rest of Canada's economy, there are projects (east to west pipelines) that will help us get a better price for Canadian resources, this is a resource that is important to our national interest, we better get the best world price we can as we're recovering**".

After delivering this **much needed message** of encouragement to the people of Canada and in particular the energy sector, it is **mind numbing** that only three weeks later his political position would do an abrupt about face. In meetings with **Quebec's Premier Legault**, O'Toole was informed in no uncertain terms that Quebec and Quebecers have **no "social acceptability" for a pipeline**.

This apparently is the same Quebec that maintains the unfathomable level of "immorality" to accept **13 billion dollars** of Alberta energy sector funding every year to prop up social programs including their **10 dollar a day daycare system**. This **sudden and cowardly about face of Erin O'Toole** is an all too common example that exemplifies the unyielding power Quebec holds over any Federal leader who dares encroach on the sacred cow that is Quebec.

Quebec is the real seat of power in this country, this is where 13 of our 20-Billion-dollar donation to Confederation goes every year, and this is where **Erin O'Toole did a 180 degree reversal** and drove a **dagger into the heart of Albertans** when he pledged, "**I will not pit province against province in an effort to progress energy east**", essentially ending any discussion on a national energy corridor before it even begins.

Not surprisingly, **Jason Kenney** wasted little time in interjecting that O'Toole was "**simply stating the obvious**" with his proclamation, he then attempted to rationalize that "**the Energy East pipeline was not on the Table**" at the meeting, well Mr. Kenney **it certainly was on the table** and we are now very aware of O'Toole's response.

This is **the Canada we live in**, the "**Con in Confederation**" is what we in the west **experience every day**. Erin O'Toole has undeniably **bowed to Legault's position** and the reasoning for doing so is blatantly obvious, **it's the Quebec vote**, and how it is inextricably linked to **the power O'Toole craves**. The

vote, and now it is inextricably linked to the power of Robt. The unwillingness of yet another conservative “**crown prince**” to have the intestinal fortitude to stand up for what is right and equitable for **all Canadians** is contemptible, and further exacerbates the realities westerners have come to expect from sad, sorry, non-inspiring, failed leadership.

Wexit is the only way Albertans will progress their agenda; separation is the key to the vault of our prosperity and a vibrant Alberta economy.

OUR READERS' COMMENTS SECTION

1. From a Reader: The very strong rumour in Ottawa is Justin Trudeau will use his throne speech September 23 to plot a new fiscal course for Canada. A much expanded state over and beyond the temporary pandemic measures. Much larger structural deficits will be the liability of the Canadian taxpayer and Albertans who historically contribute double the per capita proportion of federal taxes will be on the hook double for the grand vision. A historic tenant of democracy is "no taxation without representation". If Alberta needed a second pillar for grounds to separate this will be irrefutable. Mr. Trudeau for whatever we may think of him is at least bold. He will be making the calculation that with the present pandemic largesse he is showering on Alberta that we are not bold enough to leave, that Albertans taken as a whole are too inept to chart their own course. Of course he's probably been embolden in this view by Premier Kenney who publicly stated he will not entertain separation. If the rumours of September 23 hold true Albertans will have been given the very clear challenge of whether we deserve the legacy of the generations that came before.

2. From a Reader: Gary Mason of the Globe and Mail who I loathe wrote an infuriating but very useful piece for any Albertan on Friday August 28 (not to be confused with his piece Saturday August 29). The piece was his usual Alberta condescension but followed by a matter of fact review of what Erin O'Toole can reasonably deliver for Alberta while still placating the national electorate enough to get elected. Answer very little.

3. From a Reader: Please share this gripping article with your readers. It describes what has happened in Canada during the COVID 19 pandemic to a

tee. What went wrong: Corona and the world after the full stop. [Click here](#)
Canada had a state of the art pandemic guideline, the CPIP, that was
abandoned in favour of a pandemic response modelled after China's response.
Now, we await our PM's throne speech when he will announce his plan to
remodel our economy and society in the image of his Greenaway Marxist
ideologies. Never before has it been more imperative to scrutinize and
question our federal leadership!!

4. From a Reader: This is one of the best analogies yet...

I bought a bird feeder. I hung it on my back porch and filled it with seed. What
a beauty of a bird feeder it was, as I filled it lovingly with seed. Within a week
we had hundreds of birds taking advantage of the continuous flow of free and
easily accessible food. But then the birds started building nests in the boards
of the patio, above the table, and next to the barbecue. Then came the shit. It
was everywhere: on the patio tile, the chairs, the table ...
everywhere! Then some of the birds turned mean. They would dive bomb me
and try to peck me even though I had fed them out of my own pocket. And
others birds were boisterous and loud. They sat on the feeder and squawked
and screamed at all hours of the day and night and demanded that I fill it when
it got low on food. After a while, I couldn't even sit on my own back porch
anymore. So I took down the bird feeder and in three days the birds were
gone. I cleaned up their mess and took down the many nests they had built all
over the patio. Soon, the back yard was like it used to be ... quiet, serene...
and no one demanding their rights to a free meal. Now let's see... Our
government gives out free food, subsidized housing, free medical care and free
education, and allows anyone born here to be an automatic
citizen. Then the illegals came by the tens of thousands. Suddenly, our taxes
went up to pay for free services; small apartments are housing 5 families; you
have to wait 6 hours to be seen by an emergency room doctor; your child's
second grade class is behind other schools because over half the class
doesn't speak English. Corn Flakes now come in a bilingual box; I have to
'press one' to hear my bank talk to me in English, and people waving flags
other than "ours" are squawking and screaming in the streets, demanding
more rights and free liberties. Just my opinion, but maybe it's time for the
government to take down the bird feeder. If you agree, pass it on; if not, just
continue cleaning up the shit!

5. From a Reader: I am a weekend rancher and sell 300 acres of horse hay
annually. My hay broker took a load to a horse facility on Vancouver Island

annually. My hay broker took a load to a horse facility on Vancouver Island. Arriving on Vancouver Island by ferry, Greenpeace harassed and followed the truck to the horse facility. They harassed the facility, the RCMP was no help (thanks Trudeau) and the broker had to hire an armed guard service to get the hay unloaded. Hay from Washington is ok, but not from Alberta. Downtown Calgary is empty and Alberta has lost its tax base and we sit back and do nothing. Get our own police force as the RCMP is a Gestapo police force for the liberals. Cut off Alberta oil to BC - have some balls dealing with all these communists. They are going to destroy our oil anyways. Cut off all BC exports to Alberta and Sask. Deal with Greenpeace. They are from Holland. Cut off anything Holland we import. Do not allow Tides, Leadnow, Suzuki, the Rockefeller foundation, Hewlett-Packard foundation to support all the anti-oil groups. BC has elected communists for over 60 years. We now have NDP Singh supporting Trudeau to be a dictator. We no longer have a democracy. Alberta is being destroyed and you political leaders allow this to happen. Trudeau has invested \$4 billion of our own CPP money with a Houston based natural gas company in eastern USA. You can be sure a pipeline will go to Quebec so they can develop LNG plants along with the 4000 tankers a year and be the new corrupt energy centre for Canada. There is virtually no drilling for natural gas in Western Canada. What happens when we run out? Another fair deal panel?? Get our own pension fund! Have some leverage dealing with Trudeau and the communist raised Freeland.

ACTION ALBERTA - WHO WE ARE

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta's energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please **share** this email with your contacts so we can turn this unfair, inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

Thank you for ALL of your support and interest!
