ACTION ALBERTA
HELLO ALL (The Group of 7,635+ and growing):

CANADIAN ECONOMY LOSES 24,400 JOBS, UNEMPLOYMENT RATE RISES

Canada’s economy lost a whopping 24,200 net jobs in July, the second month in a row with job losses, following a loss in June as well. The numbers are startling and indicate serious trouble with our economy.

The unemployment rate rose to 5.7%, also the second time in two months that the unemployment rate has risen. There’s more disturbing data, as hours worked dropped 0.7% on a year-over-year basis.

And the net job losses mask an absolutely devastating month in the private sector, as a stunning 69,300 jobs were lost. Shrinking private sector employment is alarming. A healthy economy adds private sector jobs each month. Shrinking private sector employment suggests a shrinkage of investment and a pending recession.

However, public sector jobs rose by 17,500 and self-employment of 27,700. Public sector up 17,500 - what the Hell??

Both part-time and full-time employment fell. This job report makes clear that Canada’s economy is in serious trouble, and the economic policies of the Trudeau government are failing.

Alberta, Nova Scotia and New Brunswick posted notable declines in employment last month — and jobless rates moved higher in each of the provinces. Prince Edward Island and Quebec added jobs last month, the report said. Youth employment fell by about 19,000 positions, pushing the jobless rate up 0.7 percentage points to 11.4 per cent.

The number of positions for core-aged women — between 25 and 54 years old dropped by about 18,000.

BANKRUPTCIES SOAR, PARTICULARLY IN ALBERTA
Total bankruptcies in Canada during the first quarter of 2019 were 33,211. Total bankruptcies is up 6 per cent from Q1 2018 under our fearless Liberal leader. Total bankruptcies in Alberta during Q1 2019 were up 15 per cent from Q1 2018. The Liberal way with business is full steam ahead into the ditch, particularly in Alberta and Manitoba.

OUR READERS' COMMENTS SECTION

1. From a Reader: I wonder if it would be useful to ask Justin Trudeau to tell ordinary Canadians his answer to this question: Do you believe that the Government of Canada should give priority to reducing Canada’s contribution to global CO2 emissions over all of the following: prosperity, jobs, and economic opportunities for all regions of Canada; Canada’s economic and cultural sovereignty; National unity; and The Rule of Law?

2. From a Reader: Subject: National Post Article - Kenney Video Targets Trudeau (August 6, 2019) I believe your article may have been carried nationally. So I wondered, as I read it, what might readers living outside of Alberta take away from it? Will it help people in Toronto and Montreal (and Liberal supporters inside Alberta) understand why many Albertans are so frustrated that the idea of separation is even seriously considered? Will it help to make the nation more informed, and to avoid a crisis of national unity? I don’t think it will. You called us “oil rich Alberta”. That old and prejudicial phrase makes us sound like we’re drenched in easy money, and not worthy of being listened to. It makes us second class. You didn’t mention 140,000 jobs lost, homes that can’t be sold by unemployed and retired western Canadians, cities losing businesses and their tax base and contemplating cutting budgets even for fire departments. You didn’t mention Trudeau’s indifference to all of that, and BC’s and Ontario’s apparent enjoyment of it, making many Albertans wonder if we are being sacrificed in the name of climate change. Do you call Quebec “hydro and transfer payment rich Quebec”? Your numbers on transfer payments since 1957 are smaller than others I have seen - i.e., $200 Billion to Quebec just since 2005. Do you call BC “Ocean, tourism, fisheries, timber, coal and hydro rich B.C.”? Or is only Alberta “rich” and therefore unworthy of sharing in the nation’s prosperity? Perhaps helping to raise that kind of awareness was not your objective. I suppose your principal topic was what is being said about separatism, rather than why people are saying what they do.
You concluded with an emotional quote from Lorraine Vestuk, who accuses Kenney of "tearing at the fabric of this good nation". I would ask her if she has written a similar message to Trudeau. What kind of country do Canadians want? Are the views of Torontonians (and Trudeau) compatible with a prosperous Alberta? Western separatism is a political reality in Alberta today, with good cause. If Kenney did not mention it, many of us would work to elect someone who does.

ADDITIONAL READING/ VIEWING

In closing, here is additional information on the problems we are facing and the need for us to take remedial action immediately to right our sinking ship.

ACTION ALBERTA - WHO WE ARE

We are a group of deeply concerned, unpaid Alberta resident volunteers. Our work is intended to educate, inform and motivate all Canadians to be visible and vocal regarding the unequal, unfair and discriminatory treatment of Alberta by our Federal Government. Alberta’s energy sector is the most important driver of the Canadian economy and its health directly impacts the standard of living of every Canadian. Unfortunately, that is not happening under our current Federal government!

Please share this email with your contacts so we can turn this unfair, inevitable, scientifiable trend around for the good of all Canadians. If we
inequitable, unjustifiable travesty around for the good of all Canadians. If you would like to submit information or articles, please send them to me.

Thank you for ALL of your support and interest!
